16 Extract X

Substance of a letter from the Agent at Bahrein
Dated 27th Jan.y In reply to your letter I beg
leave to inform you that the affair of the people detained
in the Dubay boat is as
follows. The crew after completing their loading arrangements
prepared to leave Bahrein but on starting and passing
close by the Bahrein boat by Sheik Abdullah which
he has hailed and ordered to anchor opposite Dyrene
Island upon which they hoisted their signal
and upon coming up to the Dubay boat the Persians on board
called out to the Dubay boat to the Persians on board they
publicly but cowardly, instead of doing so climbed up into the
Bahrein. Thinking this was done for the purpose of seizing
the Captain was sent from the Bahrein and the Crew of
the Dubay boat were seized and detained. This affair
took place about 8 o'clock at the time but you when
many persons were assembled on the neighbouring
of Bahrein and there was little doubt entertained but
that if they had had an opportunity they would have
carried off the Bahrein. Upon coming from calling them on
shore before the Bahrein Sheik that their only object
was to get some pilots they were liberated. After
leaving the Persian they stated that they had been robbed
of the Bahrein by several of property to the amount of
60 or 70 Crowns. This however was positively denied
by the accused. Shown sent your letter to Sheik
Abdullah in Khor on the Persian and with send his
answer when rec.d

Intelligence has been received from Bushire that Tyyeb Khaled bin Saood is advancing with an Army of 8000 men (formed by him and his Ally Sheikh of Abu Thahir Tyyeb Refusant of Sheikh Nasser bin Sheikh Mezeem. He has, it is said entered into engagements with the Imaum of Muscat to aid him in fulfilling the conquest of Bahrein and after fulfilling these engagements he will march against Abu Thahir Tyyeb has sent many presents to the King with a view of making terms for himself with his adversary.

The Agent informs you that Khaled bin Thahir has entered Nejd and that the people of that country are inclined to join him and he is further informed that Tyyeb is retreating. He conveys an account of the disturbed state of the interior. The road between Ajeer and Lahsa is again infested by Arab robbers. A caffila has been plundered and three of the party killed. I have to inform you that affairs continue quiet on this Island. We have not rec'd any further intelligence from Bagd'd for a long time but I may be enclined from this that the affairs of Turkish Iraq are not prospering and that as he is not strong enough to march Turkish Iraq upon Bushire he is endeavouring to circumvent him by treachery Stratagem. Omar Bin Afeesan has left Bahrein with a body of Horse and foot but whether he is going to Iraq or whether his purpose is the punishment of the robbers who have lately been infesting the roads is uncertain.

I have much satisfaction in reporting that the Health of the Imaum and the remainder of the Family continues and that all the Subjects are engaged in

peaceful and profitable employments of Fishing and Trading, but the feelings of hatred and enmity between the people Chiefs of Debaye and Abushehr are daily becoming stronger and they are only restrained from the fear of the English from breaking out against each other.

On the 23 Jun.y Sheik Khalifa bin Sheik Ahmed attended by 140 men proceeded into the interior of the Bedouins who reside about Khor Shimasur. and Khor Ughrabee for the ostensible purpose of hunting - his brother Sultan acts as his Naib during his absence.

The Chief of the Monasir has not answered my last letter but made promises to Sheik Nasser engaging thereby allowing the restoration of the stones and property taken by them from his Brother. I have since his departure from Bas el Khymah taken no further notice of this disagreement - By Sheik Nasser with the stones and property was still in the possession of the Monasir and Bin Ahmed and Sultan bin Saqr bin Sabeil and the Jabir Sheik were already there with them.

The following interesting intelligence has just reached me. A Boat belonging to Debaye detained in the Persian Gulf from the 31 Jan.y to the 1st inst. and upwards first part of the Cargo with 8 of his associates had proceeded to Kellah abreed (which lies on the Main land a little above Bandarbin) and having landed

20th proceeded towards the Fleets and Land of that place with the intention of carrying them off. The natives having not accepted the observation of the Inhabitants who embarking in 4 boats went off and carried the Vessels belonging to the Maranders - having done this they waited for the appearance of any vessels who not suspecting what had taken place came directly into Port to the Shore for the purpose of embarking it. The crew being unarmed and unable to resist were all made prisoners. The account further states that they are to be conveyed to Bassadore.

I have written Mr Rothschild and wrote him upon the above subject - As I learn it is generally believed that Ingraham is now with the Imaum of Muscat I think that it is most likely Mr Rothschild Interpreter who has been made a captive as he is said to have been residing in the neighbourhood of Lowa and Loukia

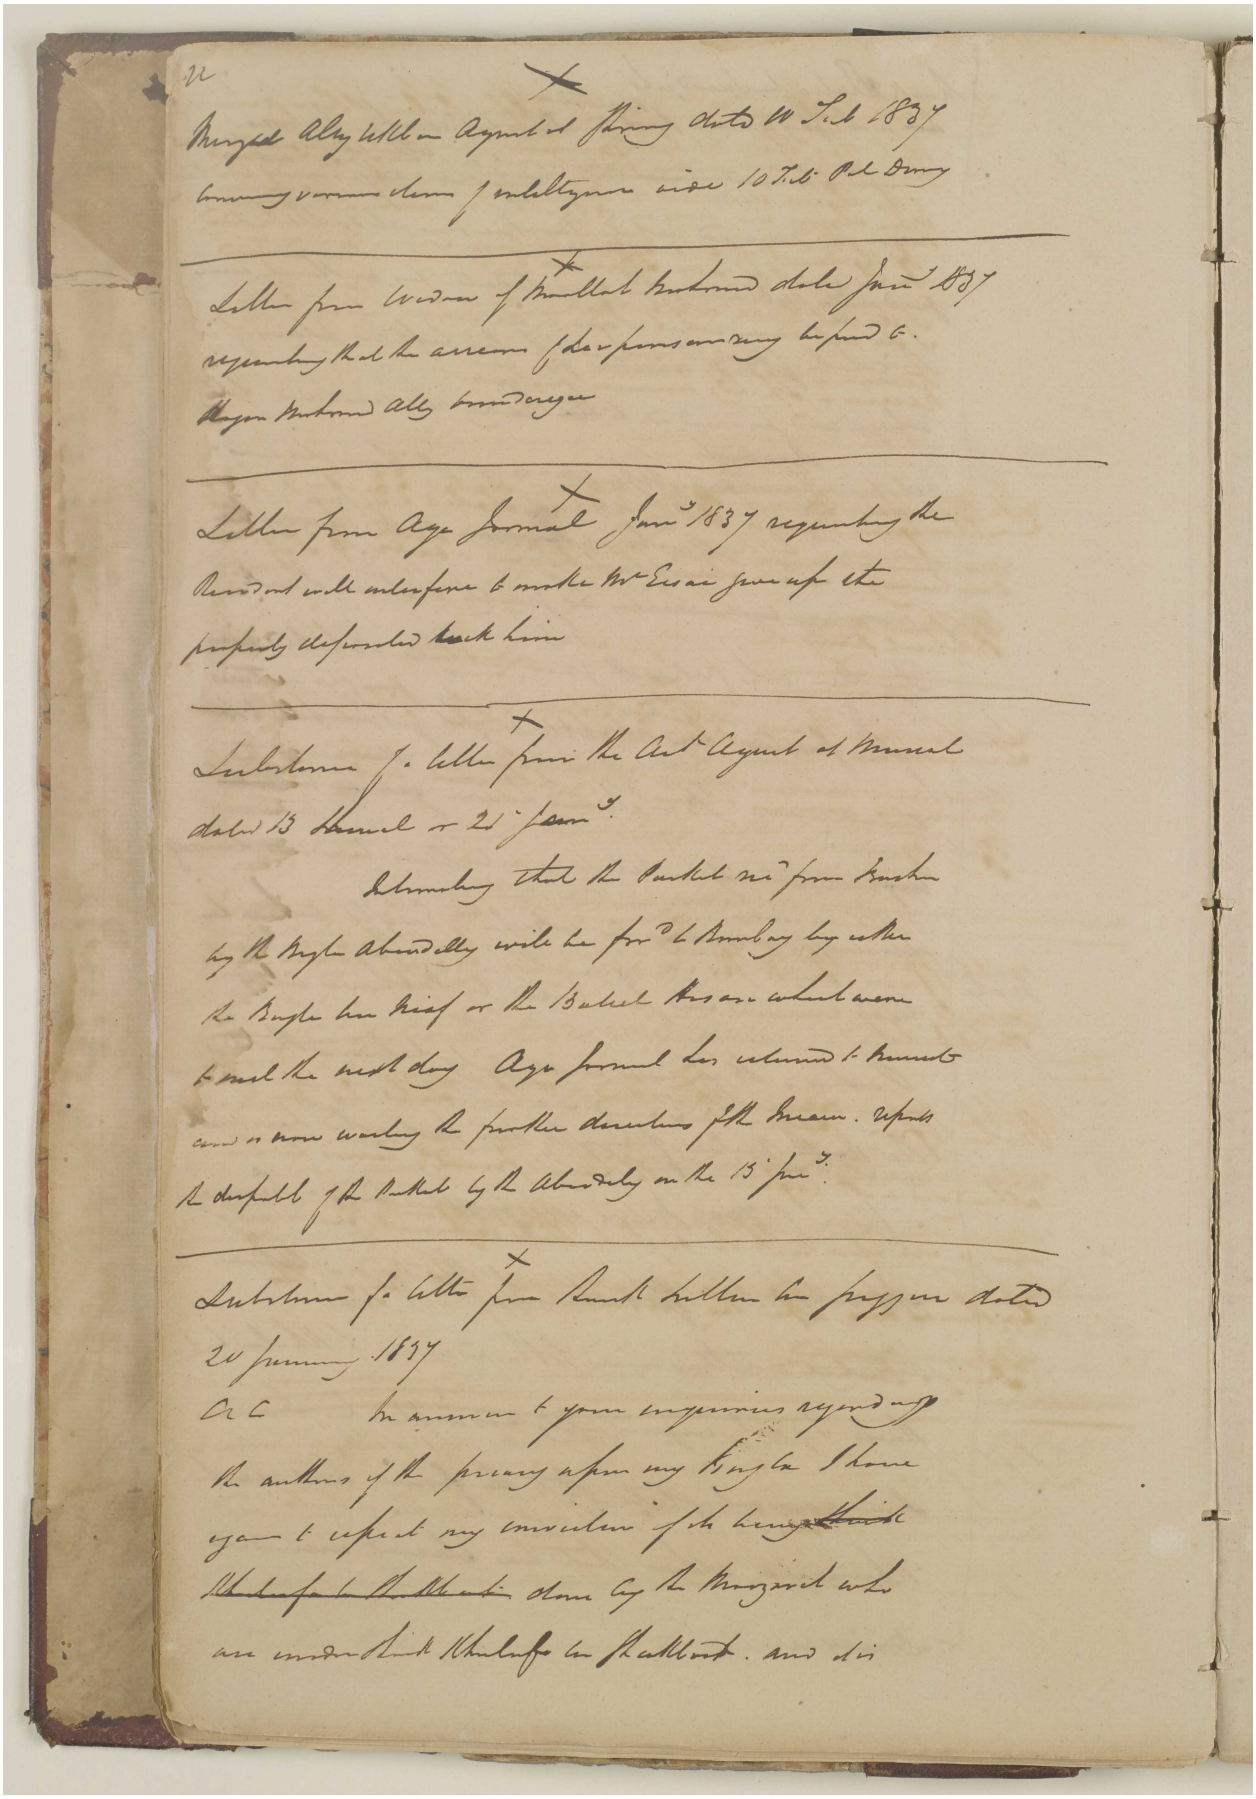

One of the principal men of the Province has lately returned from Lahsah. He reports that a serious disturbance has broken out in Redfa between Seyyid bin Toorkee and Mahed bin Saood. The Habab of the Abdalee tribe have espoused the latter Chief who was conquered by Hakim Pasha

45 from the individuals among the Persians
committed last autumn during said perfidious
plunder on my boats. I beg to say that
the affair is entirely without foundation
you are well aware that the pirate portion
of the Persians belongs to Bushire and it is not
probable that I should encourage those who to
rob him. but I cannot retaliate upon them
as they belong to the Bushire. If I knew you
were to order all the Bushiri to join together & punish
them the plundered property would most likely be
recovered. We have numbers suffered from these
Pirates and if it had been in our power we would
have avenged ourselves. You say that the
[illegible] fault. That Persian who was killed during
the Bushiri company in which was Abdullah
and Ben Jumah met his death by his own fault, but
I am yet to learn that those who are friendly persons
have ever any ships should be stable to be killed because they
are fighting - If the [illegible] to the regulations for the
future I beg you will let me know
I have nothing to say against the detention of those
who took the customs of Bushire but they ought
not to be plundered of what they possessed. Hope
therefore that you will recover the property taken

Intelligence has been received from Muscat of the capture of Bombay by HH the Imam after a loss of 200 men. From the time that Shaikh Faisal has got

when they sail with them at sea, and
already the Amaeer tribe have plundered a
Bushire boat between Bushire & Katif, pretend-

ing to the people of the latter place, although
in reality it belonged to those of the former
In like manner the Howajer tribe seized
and maltreated and then boat the property
of Bushire subjects while proceeding to Katif
and having on board an individual belonging
to Bushire, at Ras Tanoura being her of 20 Mahs rice

come to the knowledge of the Chiefs of

Futtah Ally Shah addressed to His Royal
Highness Houssein Ally Mirza Firman-
Firma of Fars.—

Enclosure No 3 in Letter
1 Secy dated
June 1837.
Copy sent to Govt

Honored by our ever recurring
favor know that the Agents of the English
Government in this Country have represented
to the Ministers of this State that upon the
Horses which they convey from Persia to their
own Country a duty is demanded by the
Custom Master of Fars and its ports— It
appears however from their representations
that this Custom was not formerly in force—
As therefore the states of Persia and England
are one and it is our desire to Cultivate thus
friendly relations We have issued this Firman

14

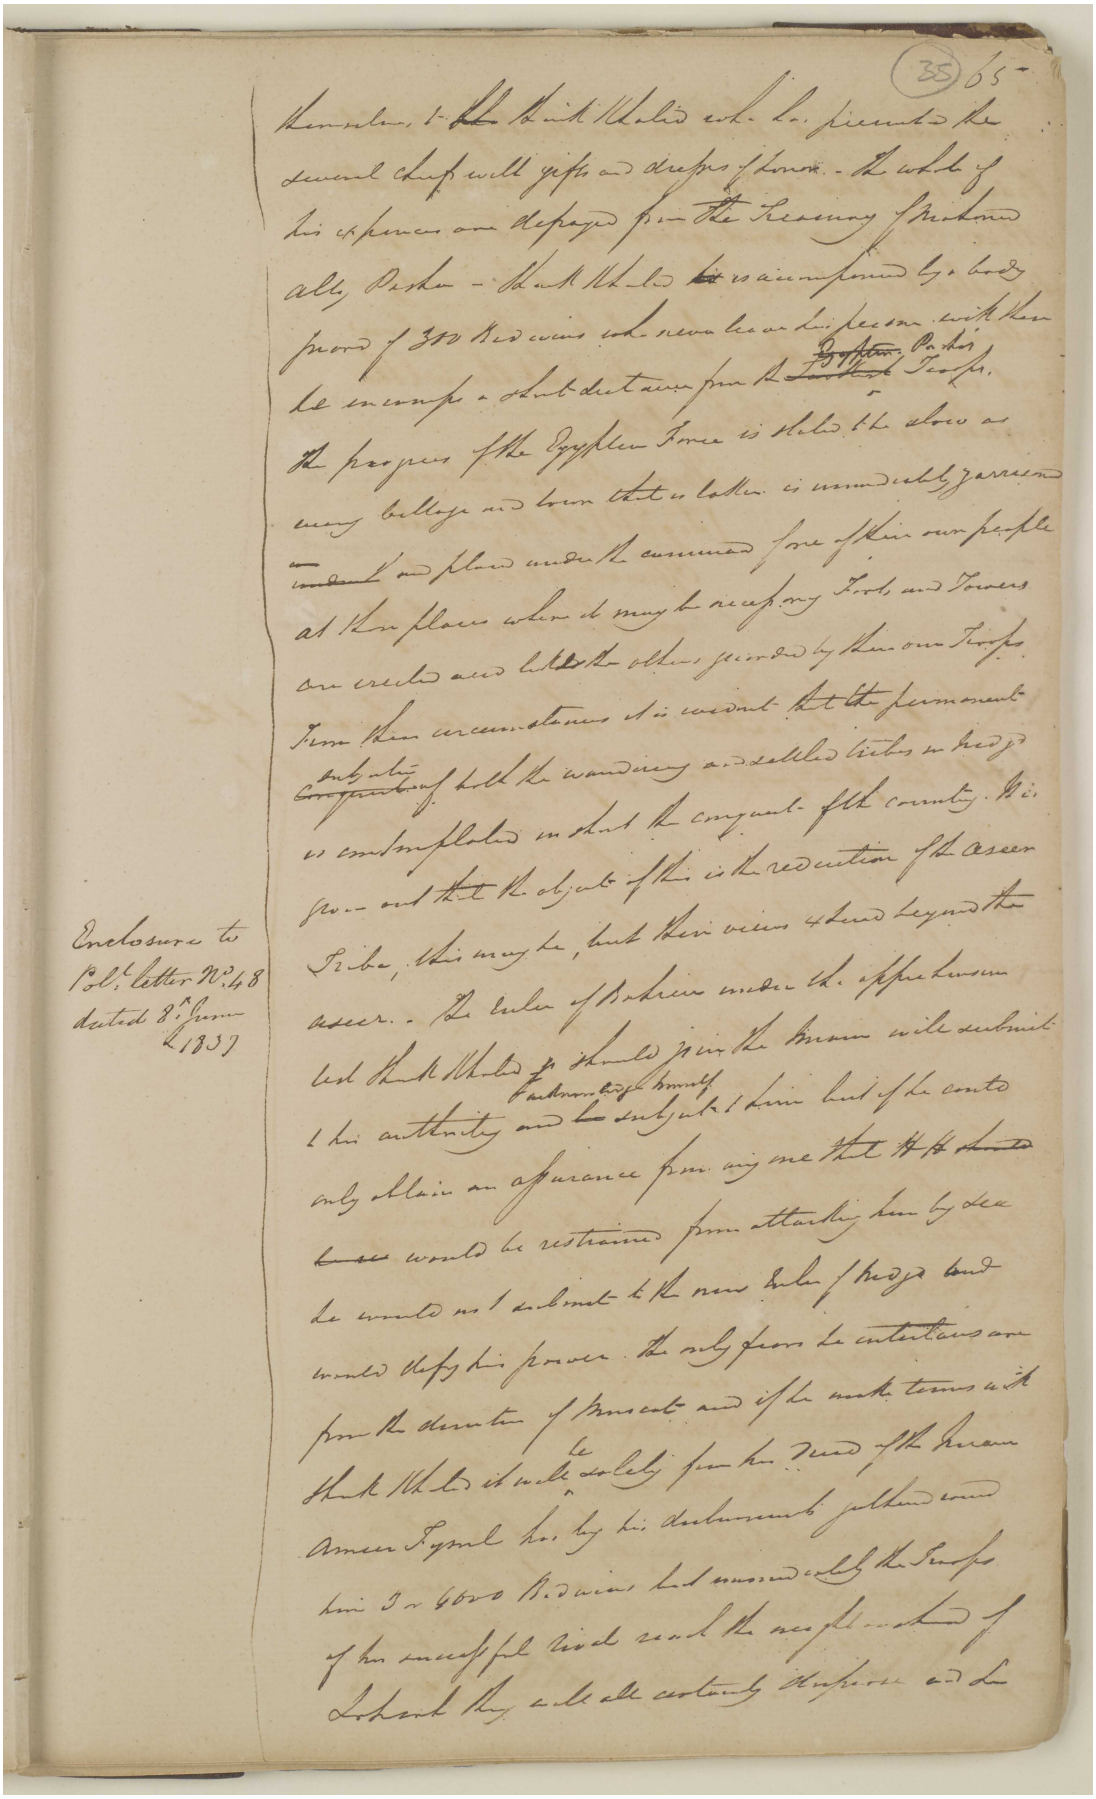

and determined that our Son shall give strict Orders that the duties upon Horses and all other Baggage and goods exported or imported shall continue the same as formerly and without their being subjected to interruption and injustice. In every respect let them (the English Agents) be cherished.-

66 [illegible] will be completed to take place from that place I shall allow you instructions to proceed on active intelligent Agent to send back for further information

Intelligence has been received that Ahmed Khalifa has left Mocha on the 12th May arrived at Lees Bunyas with 300 Boats and a Rebuke from the place he last proceeded from and for Jubba Island Mocha and Aden Island & the Chief of Aden & they are pursuing the old [illegible] return quickly to Abushaher and I make sure in case of their ventures being expected he will attack and carry the place ~~with the Capt of the~~ Sword.

Translation of Letter from Ahmed Abdallah the Arab Chief of Bushire dated 17 Jeffer = 23 May 1837

After Compliments Your letter has been received and its contents understood. With reference to your enquiries touching the Egyptian Troops which have entered Nejd I beg to acquaint you that they have arrived at present near the [illegible] boundary of Nejd a place about 60 or 70 days journey from Riza. This force is accompanied by Khaled bin Saoud who is acquainted with the country. I do not know whether it is intended that he shall be appointed to the chief authority in Nejd or whether he

is only used as a tool. When the different Tribes in the province heard that Mahomed had entered it with a foreign force they sent in letters of submission thus tendered only with a view to gain Egypt. The Letter perceiving this defection was not able to fight: he therefore collects his property Horses and Camels and retreated up to Dongola where he at present remains ~~& he hopes~~ to be able there to make a more successful resistance as it contains a large Fort with defences well stored with provisions and surrounded by walls that cannot be breached by guns. The Cullegee or Hedjaz on the contrary were not capable of offering any ~~effectual~~ opposition the Fort of Sukot also contains sufficient provender for all his Horses and Camels. The Bedouins have therefore recommended him to take up his position in this place which accords with his own wish. As far as I can learn the Bedouins are more favorably disposed to Mahomed Ali Egypt than towards the Egyptians ~~& consequently~~ and consequently the former has determined upon fighting but God knows how it will end. The reports of the numbers of the Egyptian Troops differ some say there are 1000 Horse and 1000 Foot others again assert that this is too large an estimate.

The people of Debaye had sent some despatches a boat's crew from Lokoja preceding them and he had remained for some time at Bunu Pankasy on the way. He however reached Ibadan 3 days before Sheik Mahomed and delivered his letter but the Chief absented himself and refused to receive the information given him from time to time indirectly from Kiyama Ibadan Tribe and he totally refused from Kiyama upon which Sheik Mahomed ordered the immediate commencement of hostilities as the Bimyas Chief would not have Sheik Mahomed upon whom he was aware that Sheik Mahomed of Debaye and Sheik Sultan of Takrooris has a Khymat would attack his rear. Finding that this information & preparations were made and consequently they were completely surprised by the arrival of the Bimyas Chief with his force

left that place and took all his property returned to Sohar and there remained for a few days. While a council of war was held the Chief refused to accompany and that he was now taken up a position between that district and Ajeer, having written to the Nahan Chief requesting him to postpone the Island all his property - his object was whether he could induce the Chief to leave his country. If this be the case he will return to Dymee. The Nahan has garrisoned the Fort of Shinas with 300 men amply supplied with stores. Letters were sent to Zanzibar carrying the Chief's proposal from the place. In the meantime he will return to Muscat.

To this Resident replied that he had been determined that about the end of July the Commodore Pasha would come over to Abushehr with the Turkish forces - that if quarrels were made and the 2500 Tomans were ready to be delivered to him upon his arrival at Abushehr he should be allowed to wait until the termination of the Persian Fishery before making the payment of the remaining balance. but that in the event of the same in question not being forthcoming the Commodore would proceed to act upon the instructions he had received and compel the Imaum Sheik to pay the whole amount of the Claims due from him that in such case both his credit and Resident friendship with the British Govt would be destroyed and he would fall in the estimation for ever

has proceeded to Bombay. At the present date Syud Saweny remains in Fidley. Syud Khalaf the son of Syud is with him and he will shortly be joined by Syud Mahomed his father. I have further to report to you that a disturbance has arisen between the Beni bu Hassan and the Jenabah tribe which I fear will lead to serious consequences. The cause has arisen out of an act of plunder committed by the former on which a number of the latter were killed on both sides. When this the Jenabah chief moved against the offending Tribe which was busy desirous of peace offered to adjust the affair by sending a respectable arbitrator to Bussorah and terms were conveyed to Bussorah attack Bussorah, a place between Jaalan and Fao. which being near the latter place was the cause of much annoyance as offering the Beni bu Hassan opportunities of committing aggressions. The Fort does not belong to the Jenabah tribe but to persons who are friendly to it. In consequence however of some hostile demonstrations made by the Jenabah to attack the Chief of the Beni bu Hassan who are unable to afford Bussorah any support I have to request that you will be pleased to direct the officer

It is evident that H.M.'s letter must prove to be upon good terms with the Syed. The affairs of Herman are not yet arranged and the settlement of Lar is left entirely upon the Persian Divan. The publication from enmity between Persia has been urged by the Russian Envoy and Minister at Petersburgh. Shah Mahomed is spending Lyons for the purpose of carrying this object

any when you have any dispute the proper way would be to bring it to the notice of H E H and his Ministers in the first instance and then if any embarrassment delay in the event of any delay taking place in bringing it to a termination, there could be no objection to your writing to Teheran. From this proceeding H E H is sure to be somewhat annoyed - he will perhaps say that he I have always entertained a feeling of friendship and affection towards you and on this plea whenever I could find a fitting opportunity have upheld every thing that the rights of friendship and equity I have taken him and urged by a kind to bring his subject upon his subject, whereas I have never been, and am not, an officious person. with the Shafiee tribes adjoining the 26th Zilkadah ja
made a clandestine assault on a place called
Shafah inhabited by the Hinawia. On both
sides about 3 or 4 men fell. after which the Hinawia
fled and their property was plundered. The cause of it
was a feud existing between them. Peace has since
been established by the mediation of a mutual
friend. On the 3rd Inst. a vessel arrived from Loor
and reported the arrival of another vessel from Yemen
having intelligence of a vessel belonging to Loor having
plundered one belonging to Maculla. The
the pretext for this act is that the owner of the
Loor vessel had claims against the Govr. of Ma-
culla, which he refused to settle. On this the
Maculla vessel returned to Loor and related that the
sum of 2600 Rials Francis had been taken from
her. on which the Turks seized on the other Loor
vessels lying at Mocha, and refused to allow them
to depart until they brought the person who had
robbed the Maculla vessel. Those of the Loor vessels
accordingly went in search of the perpetrator of the act.
and found him, but he refused to return, saying that
he had only vindicated his right. but he went
along with them to Aden. but as to what afterwards hap-
pened no information has reached me. His reports
by a Bugla from Mocha, that a Madras vessel was
wrecked off Aden, and all the crew lost, except four
all the property was also lost. Another vessel

Likewise called Thames, has been wrecked there.
On the 4th Inst the Steam Ship reached Moha
and from Mocha proceeded to Cosseir - and the
Ship Clarence proceeded to Bombay - By the
Route Zinkhajjee News arrived from Egypt, that
Mr. Ali Pasha has given a present to the Mus-
sulmen, and distributed much money among
them, to induce them to remain & cultivate the
Soil - He has also coined new coins, value 1/2 Rials
Rangais some of which (new coins) have reached Yemen.
He is now just what he was, and his ways as
the ways of the Ancient people - Shahin Pasha
with some troops, is in Beni Arech, & he is ready
resisting from the Aseer tribe, who intend to make
an attack upon that quarter - The Imaum
of Senna is very uneasy, lest the Pasha should
march upon him - Regarding the Soorapeh
the Turks have taken 1100 Rials for them
half of which was paid by those who plunder-
ed the Maculla vessel, and the other half
by those whose vessels had been held as security
for the production of the offender -

Translation of a letter from Mosllah Hupeim Agent at Khorfak to the Political Resident dated 26th Rubbee ussanie or 30th July 1857

Permit me to inform you that I did myself the honor of writing to you on the 18th Inst. informing you that all the people were occupied on the pearl banks. – I have now to acknowledge the receipt of your letter which reached me on the 26th Inst. and in reference to the plunder committed by the people of Jazeerut Hummah upon the people of Batinah and the statement of Said Hevinee that the plundered Bejarah belonged to Lusik and that of Sultan ben Lusser that it belonged to Lohar. Which circumstance you direct me to inquire into, and ascertain whether there have been two events or only one and there is a doubt as regards the place. – Immediately made inquiry into the subject and have been informed by the people of Jazeerut Hummah that they have taken two Bejarahs one of Lusik and the other of Lohar. – On the 26th Inst. I was honored with two letters from the Commodore one for Khalifa ben Shakhboot and the other for myself directing me to forward the letter to Khalifa at the same time telling him that I send 2,500 Reals without delay and if not sent in the course of 8 days the Commodore would pay him a visit. – In my letter of the 18th Inst. it is stated

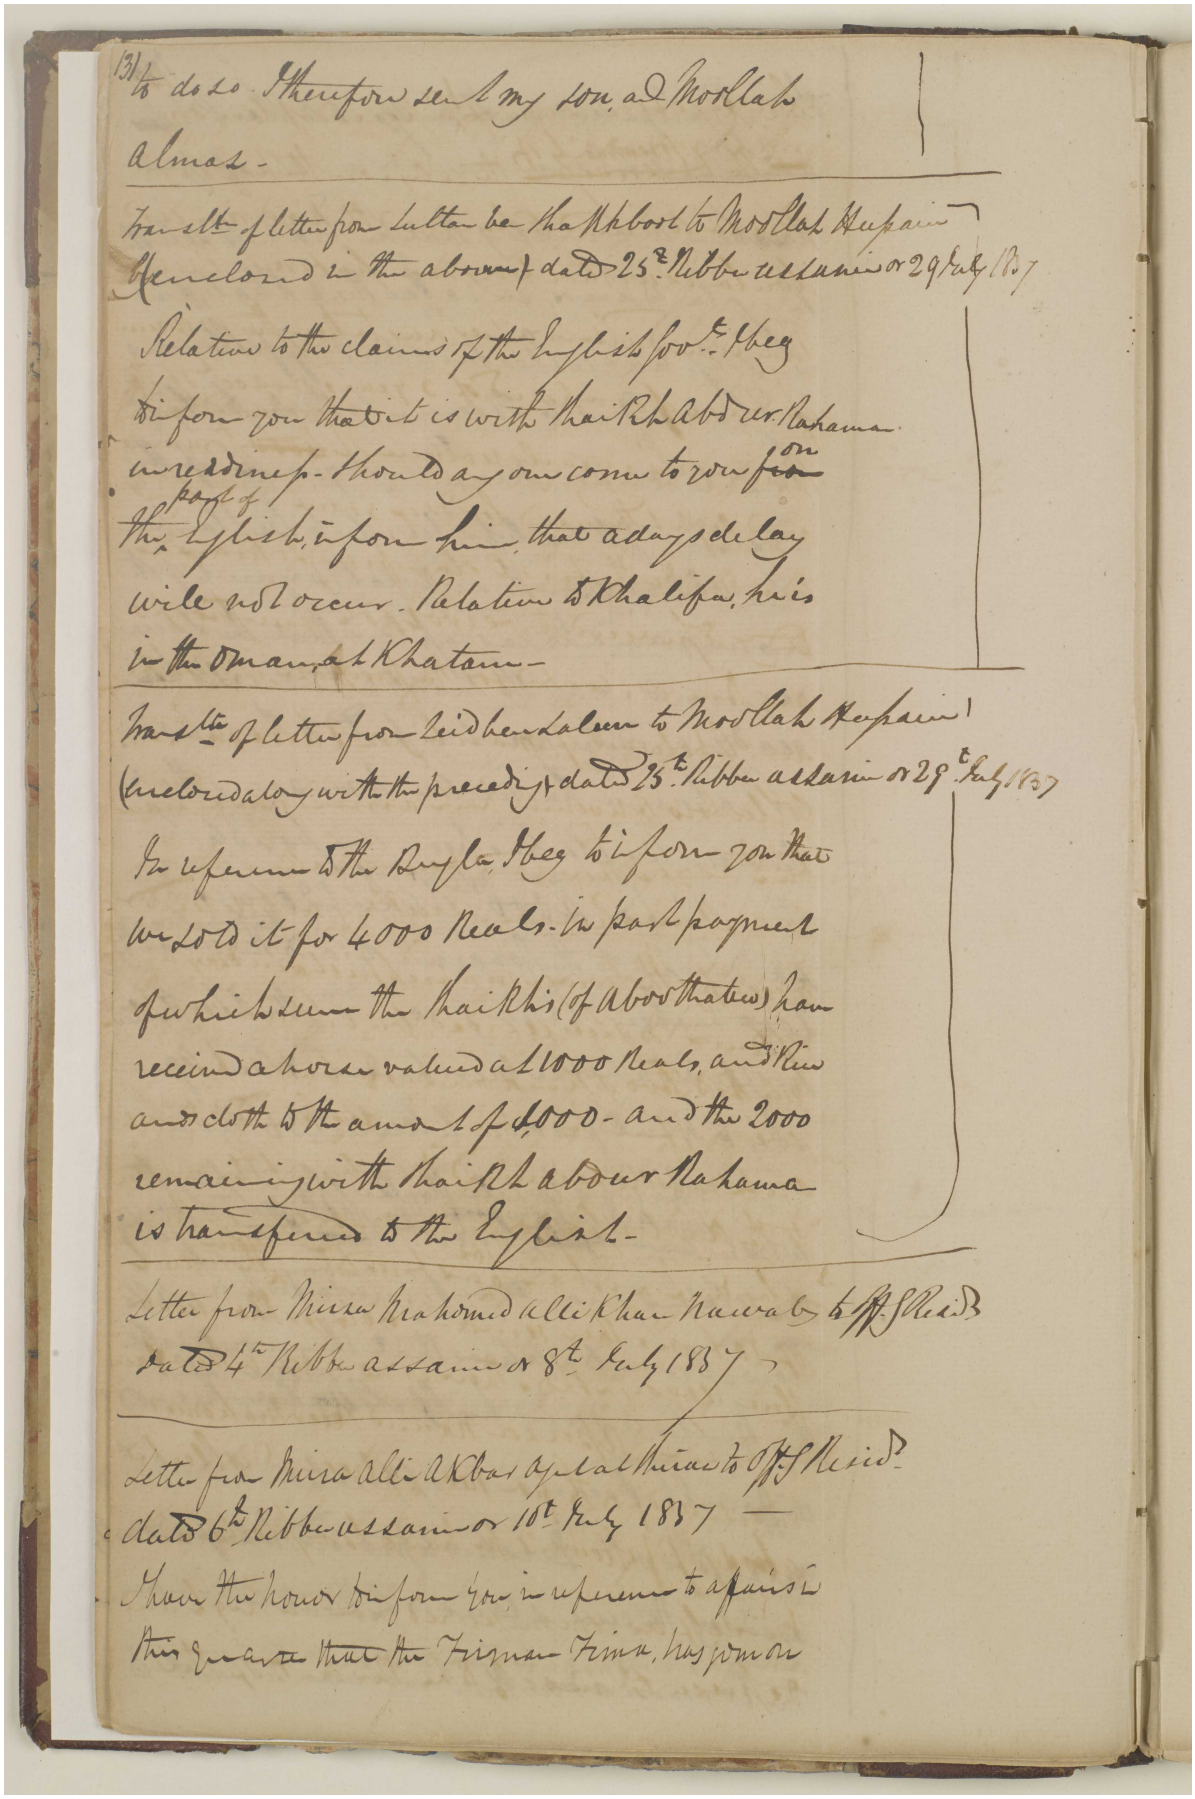

Endorsed on the letter:

that Khalifa had sent an agent to Shaikh Abd-ur-Rahman bin Essper, chief of Kishm, intimating that he wished to sell the Beyla to him, and also that Khalifa himself had collected about 4 followers and proceeded to Muscat to the deputy of Faisal bin Turkee. In consequence of the absence of Khalifa, I wrote to Sultan bin Shakhboot on the subject of payment of the money, and he has replied that the sum required is with Shaikh Abd-ur-Rahman ready. And the agent deputed to Shaikh Abd-ur-Rahman has written to me, saying that the new Beyla has been disposed to the Shaikh for 4000 dollars, of which 2000 is to be paid by him to the Government, and the remaining 2000 has been already received by the Abbotabee people in shares, merchandize & Bills. Agreeably to Khalifa's own letter dated 6th Shaban about he was to sell the Beyla and pay the whole sum realized from the sale to Government, and that at the same time payment for the claims should be liquidated by himself. Now it would appear that they would sell the Beyla, and give half its value. This is difficult, because in opposition to the promise to Govt. I wished to proceed to Khasadoo and lay the circumstances of the case before the Commodore, but have been unable to

Substance of letter from the Agent at Bushire dated
24th 27th Ribbee assanie or 31st July 1837

I had the honor to receive your letter the contents of which I fully comprehended. Relative to the proceeds realized as the price of the two Begarahs, the bag of pearls and arms belonging to the Gubbeesat, Shaikh Nahaman himself wrote a letter to me by one of his relations, to whom I delivered the articles in question, taking his receipt, which is now in my possession, and if desired, shall be transmitted to you. As regards Ameer Yasel ben Zurkie, he is reported to be in Lapa and Ameer Khalid is occupied in bringing the provinces of Hedjin into subjection. But on the 24th Ribbee assanie a Bearer of good news from Lapa, sent by Yasel reached the Shaikh (of Bushire) and brought intelligence that the Turkish army had gone to make an assault on a village called Halwah and seized on its Fort & towers, but that the two adjoining provinces had not succumbed. That same day they rendered their aid, and throughout Hootah & Hareek territory all joined out, and attacked the Turkish army, which sustained a defeat losing, it is reported, 200 men killed, 200 horses & 4 guns, captured. Such of them as escaped made the best of their way to Nejd. The Shaikhs were highly pleased with this intelligence. Shaikh Abdulla is in Khore Hussan and the remainder of the chiefs in Bushire. Any changes that may

having disposed of the Bufla without your permission, until at last he consented to make the necessary arrangements for the payment of a certain sum on the arrival of the Commodore that sum was given - For the payment of the remainder a period of 3½ months is allowed him, on the return of the Commodore to Bapadoo and my becoming answerable that a delay of 3½ months was promised the Beniaps. answer we could get from the Commodore was that the decision of the case did not rest with him but with the Resid.t that the whole sum must be paid, and the Bugla remain in their own possession At last we left Bushire with the 2300 Sp.h Crowns, & the Commodore saying that, whatever the Resid.t might direct he would do —

Unless this be done this year, and the time for bringing will have passed, the Bugla must remain until next year and be destroyed by the exposure. and if so, the will be of no use to us, & it is not necessary that we should pay for a useless article. Although the salary of the deceased had been disposed of by himself before his death, for a period of three months viz. July, Augt. & Septr. I am in hopes from the great liberality of Govt. that the pension of the deceased will be continued to his eldest son - In the event of his being appointed to the situation of his late father, I shall be responsible that the duties will be duly discharged by him - I solicit that the arrangements may be made in a way, so that, the favours of Govt. towards the family of the deceased may be perceived by the people of Shiraz - My father served the Govt. 35 years, and he had certificates from all the British Ambassadors testifying of the fidelity of his services and

My brother also served Govt about 20 years in which time he has testimonials from all the Gentlemen with whom he was connected - And I have myself been 16 years in the service of Govt - I am therefore in hopes that through the liberality of Govt they (the family) will be preserved from want - In the meantime I solicit on their behalf among this wayes as they are destitute - Finally they trust that the friendship of all the Gentlemen will be manifested towards them, and especially your friendship - A family of ten individuals were left to the care of my brother, by my father, and twenty more have been added in children and destitute relations, so that there are now thirty individuals who depended on my lamented brother for subsistence left without support - What ever may be liberally bestowed shall not be forgotten before God and it will redound to the honor of the British Govt -

By the life of Shaikh Nasir a wrong representation has been made to you - regarding what is stated - that Abrat came from the detained boats and having letters for your friends but even if has been permitted to go on to Bushire - such is not your friend's occupation that he should be engaged in such business. He views himself as connected with you, and hopes that on this will occur to produce a misunderstanding. He also hopes you will often give him the pleasure of hearing from you. He has sent to Khanaik for 30 or 40 men to be in readiness for the Ships Nassal Shah and they answer that your friend is not in Bushire and this is in consequence afraid they will be landing & taken, and should it so happen he hopes you will get them released that your friend may do what he may be able My home is at Khanaik is at Bushire and connected with you and it is hoped that my affairs will be prevented from getting being made worse Also it is hoped you will grant us your protection for I consider myself as the servant of the English

Summary Translation of letter from Shaikh Abdulrahman bin Jassim Chief of Kishm to the Offg Resident Bushire - No date - but rec'd Nov 3d 1837

Beg to state that on two former occasions I wrote to you and hope my letters have been received. Relative to the 2300 Persian rupees as part price of the Baglah which you directed to be paid to the Captain of the Nejdi Zeyrs your orders were complied with, and afterwards the Zeyrs proceeded to Abootheby to deliver to Shaikh Khalifa the letter directing him to give up the Baglah. An answer has since been received inviting us to go & examine the Baglah whenever we may find convenient - I now send my friend the respectable Haji Mahomed Moollah Hasan to explain certain propositions regarding the Baglah purchased by us. Notwithstanding the letters given by the Bunnias and in your promise I regret there is no other reasonable excuse to request that a letter may be granted, a verbal statement given to Haji Mahomed Moollah Hasan, to the following effect

The large Bunnias Baglah has been sold by us and 2300 Rupees have been received by us from Sheikh Khalifa on account the remainder of the price of the Baglah has been all given by such a one to Shaikh Khalifa and of the price of the Baglah not a dinar remains with such a one. Also this Baglah we have sold to such a one whom has any just claim or has to the amount of a dinar on account of him. Therefore let no one molest him on account of the Baglah - This letter we hope for from your justice & equity, for it will be much more highly esteemed & valued by us than many letters from the Bunnias. We trust to your favour for it being granted to us. Should the Commodore be in that quarter we hope

You will give him directions to the effect that in the event of the Semaphore being properly while we are engaged in launching the Buglo he will not desert us, and should he not be in that quarter have the kindness to address a letter to him to the above effect.-

Again let it not be concealed from you, relative to the Kongoor people that they committed certain depredations on our people, and killed two of them. Also previous to that occurrence we had claims against them. the whole of which affair was represented to you last year. But you would not consent to our avenging the blood of our people on those of Kongoor - and because you would not, we remained quiet: But do you suppose those unjust acts which the people of Kongoor committed on us, can hardly be done and we shall be dispised thereby. We have demands to settle with them, and blood to avenge on them, and to remain quiet would degrade us greatly - You should, by your injunctions remain still, your equity & generosity require of you that the affair be not allowed to be passed unnoticed -

Hajee Md Moollah Bapan will wait on you and explain the truth of the affair to you. And should you wish that we allow our rights and our blood to remain unredressed it matters not - inform us ——— ———

distrust to them, but receiving positive assurances that they had nothing to fear, they permitted the people of the Badaus to board them. After about an hour they all [illegible] the crew of the Rupha seized their arms & boarded the Rupha. On the crew & passengers perceiving this, they rushed upon them and some of the latter was wounded in the hand. Whatever was on board the Rupha was plundered. The crew informing them that they were British subjects residing at Malabar, but they paid no attention to them. An account of the property plundered from the Rupha is enclosed. On 20th Rujib the Chief of the Samba came to the Leids (at Muscat) and represented that the act perpetrated on the Rupha was the affair of mischievious youths and whatever was taken should be brought back, that it might be restored, and for the offence would be pardoned. The Leids replied that it was necessary that those youths should be brought, and on condition of this being done they themselves would be released, but the youths must be punished. They afterwards sent for me & directed me to receive the property & restore it. This I at first excused myself from doing, but finding that such was their determination I could no longer oppose it. The property & claimants being present every one knew & took possession of his property except the Noqueda who refused doing so, stating that it was for different. He took & placed it in a godown, the door of which he locked. So far as I have been able to ascertain the Noqueda demands more than the property he had and the Leids have placed mediators for the arrangement of the affair. The result will be afterwards reported to you.

The Imaum's daughter has come to Muscat to Birka. The Belooch Chiefs proceed to Zanzibar to Mahaw. It would appear that the Leid has thought it better to defer the delivery of the articles he purposed sending by the Prince of Wales to England to an English Merchant, who is to send the articles in return.

struck & thrust him to the extent that he is near dying
and this has been done on the part of the doctor, contrary to the decrees of the laws of Govt. On this
account a number of Mahomedans assembled in the presence of their high holinesses Shaikh Nasan, and
Aaja Zein ulabadeen and reported the circumstance
and their highnesses above mentioned signified
to me that being the Govr of this quarter appointed
by the Govt to the office of the Vizier Vizier, I should
write to you requiring that the doctor should be
sent to their presence, that after inquiry and confirmation of the fact the law may take its course on
him that others may fear and be deterred from acting
disorderly. Should it not be so & the doctor not
be sent the faithful will make a general assault
there will be no remedy. And of course they will
make representations to the presence of the Vizier
Vizier, and I shall be called to account. Should he not
be sent perhaps there will be a general assault and

returning to his house he finds the prince there, and en-

wife what the prince was doing in his house. She re-
plies that he was her uncle's son, & had come to visit
her. Ladder makes preparations as if he intended to
send her to Mecca, but privately directs his servant
to convey her to Tehran, intending to send a bile of de-

forwards complaints against Ladder to the King, and
Ladder also sends a man to complain bitterly of the
conduct of the prince. The King writes to Hyder alli
Khan the prince's Minister intimating to him that he
was on the way to Herat and that he had not time to

Your letter has been received and its contents understood. You state that you are sorry for the war between us and Khalifa ben Thakhbook, and are not pleased at it. This is the state of those who view themselves as men and distinction will accrue to all on whom it may please destiny to bestow it. This is no new thing. It is of anterior date that such occurrences take place among Arabs. When Captain Hennell left this he wrote a letter stating that he would only be absent 2 months. Now a length of time has elapsed should you have any intelligence from him have the kindness to communicate it to us.
