About this record

Journal of the voyage of the East India Company ship the *Rockingham* from England to Madras [Chennai] and Bombay [Mumbai] and back (Captain Thomas Butler), 1800-1802. The *Rockingham* departed from Torbay on 27 May 1800, and the journal covers the ship's visits to the following places (dates are those of arrival): 5 December 1800, Madras; 2 April 1801, Bombay; 16 May 1801, Mocha; 22 June 1801, Geddah [Jeddah, also written as Judda in the journal]; 14 August 1801, Mocha; 23 November 1801, Tillicherry [Thalassery]; 31 December 1801, Cochin [Kochi]; 4 January 1802, Anjengo; 5 April 1802, St Helena; 8 June 1802, the Downs.

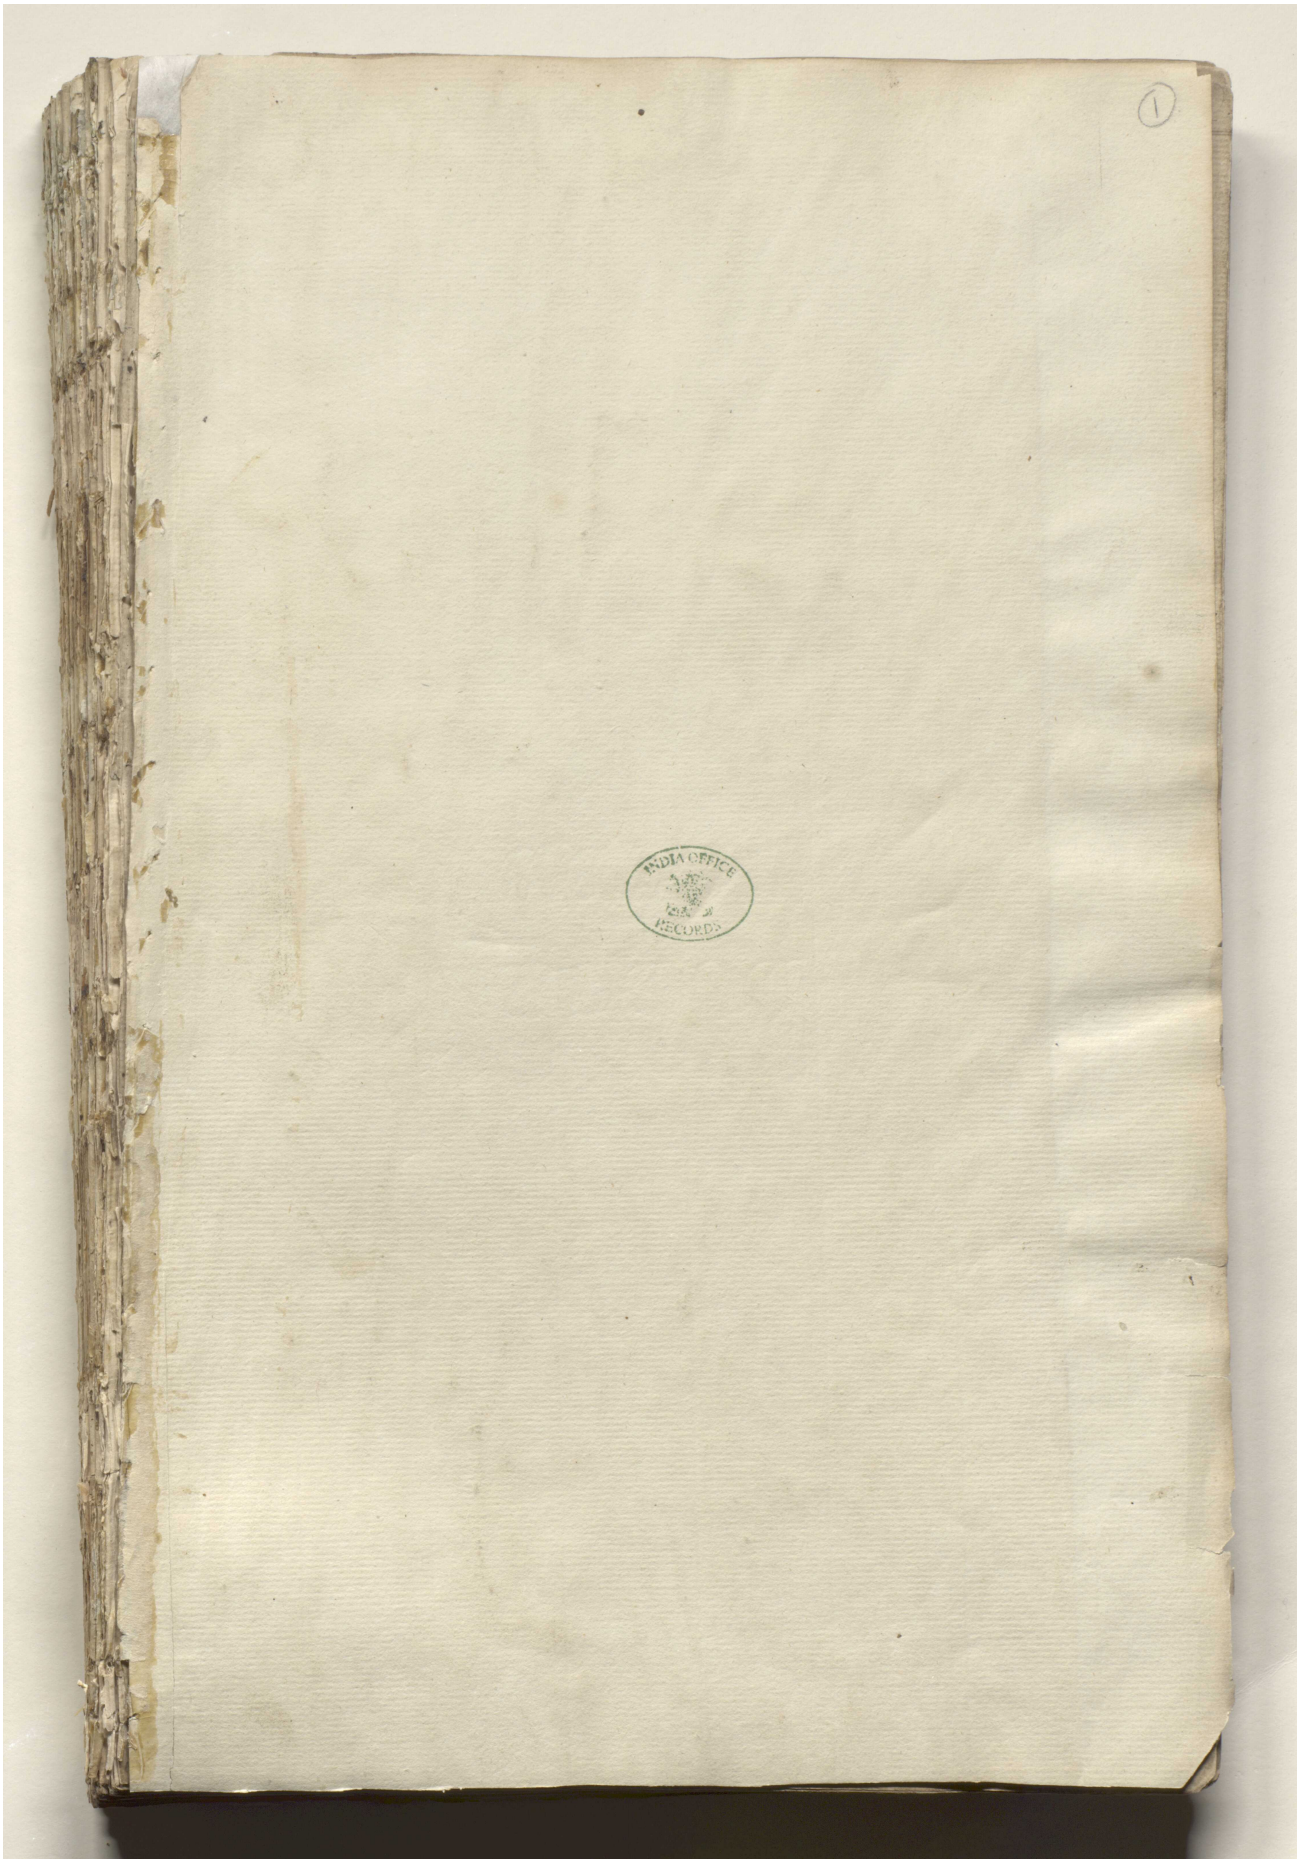

The journal begins with a list of officers and seamen on board the *Rockingham* , consisting of six columns recording the following information, where applicable: men's names; number; run [deserted]; discharged; dead; and year, month, day, and place where (folio 2). This is followed by lists of passengers for the outward and homeward journeys, mainly consisting of troops (folios 2-3). For the outward journey, a table of figures, divided into ranks, lists European and 'native' troops destined for Madras; among the list of homebound passengers are invalids from various British Army regiments (including the 19th Light Dragoons, the 12th Regiment of Foot, the 33rd Regiment of Foot, and the 73rd Regiment of Foot) who boarded at St Helena (in this list names of soldiers are provided). This is followed by daily entries of notes recording the preparation and loading of the ship at Blackwall shipyard, and later at Woolwich, Gravesend, and Portsmouth (folios 3-5). These notes include remarks on weather and other ships in the vicinity.

The main body of the journal is a log book containing daily entries (although not for every day of the voyage) in six columns: H [Hour], Courses, K [Knots], F [Fathoms], Winds, and a final column containing the date,

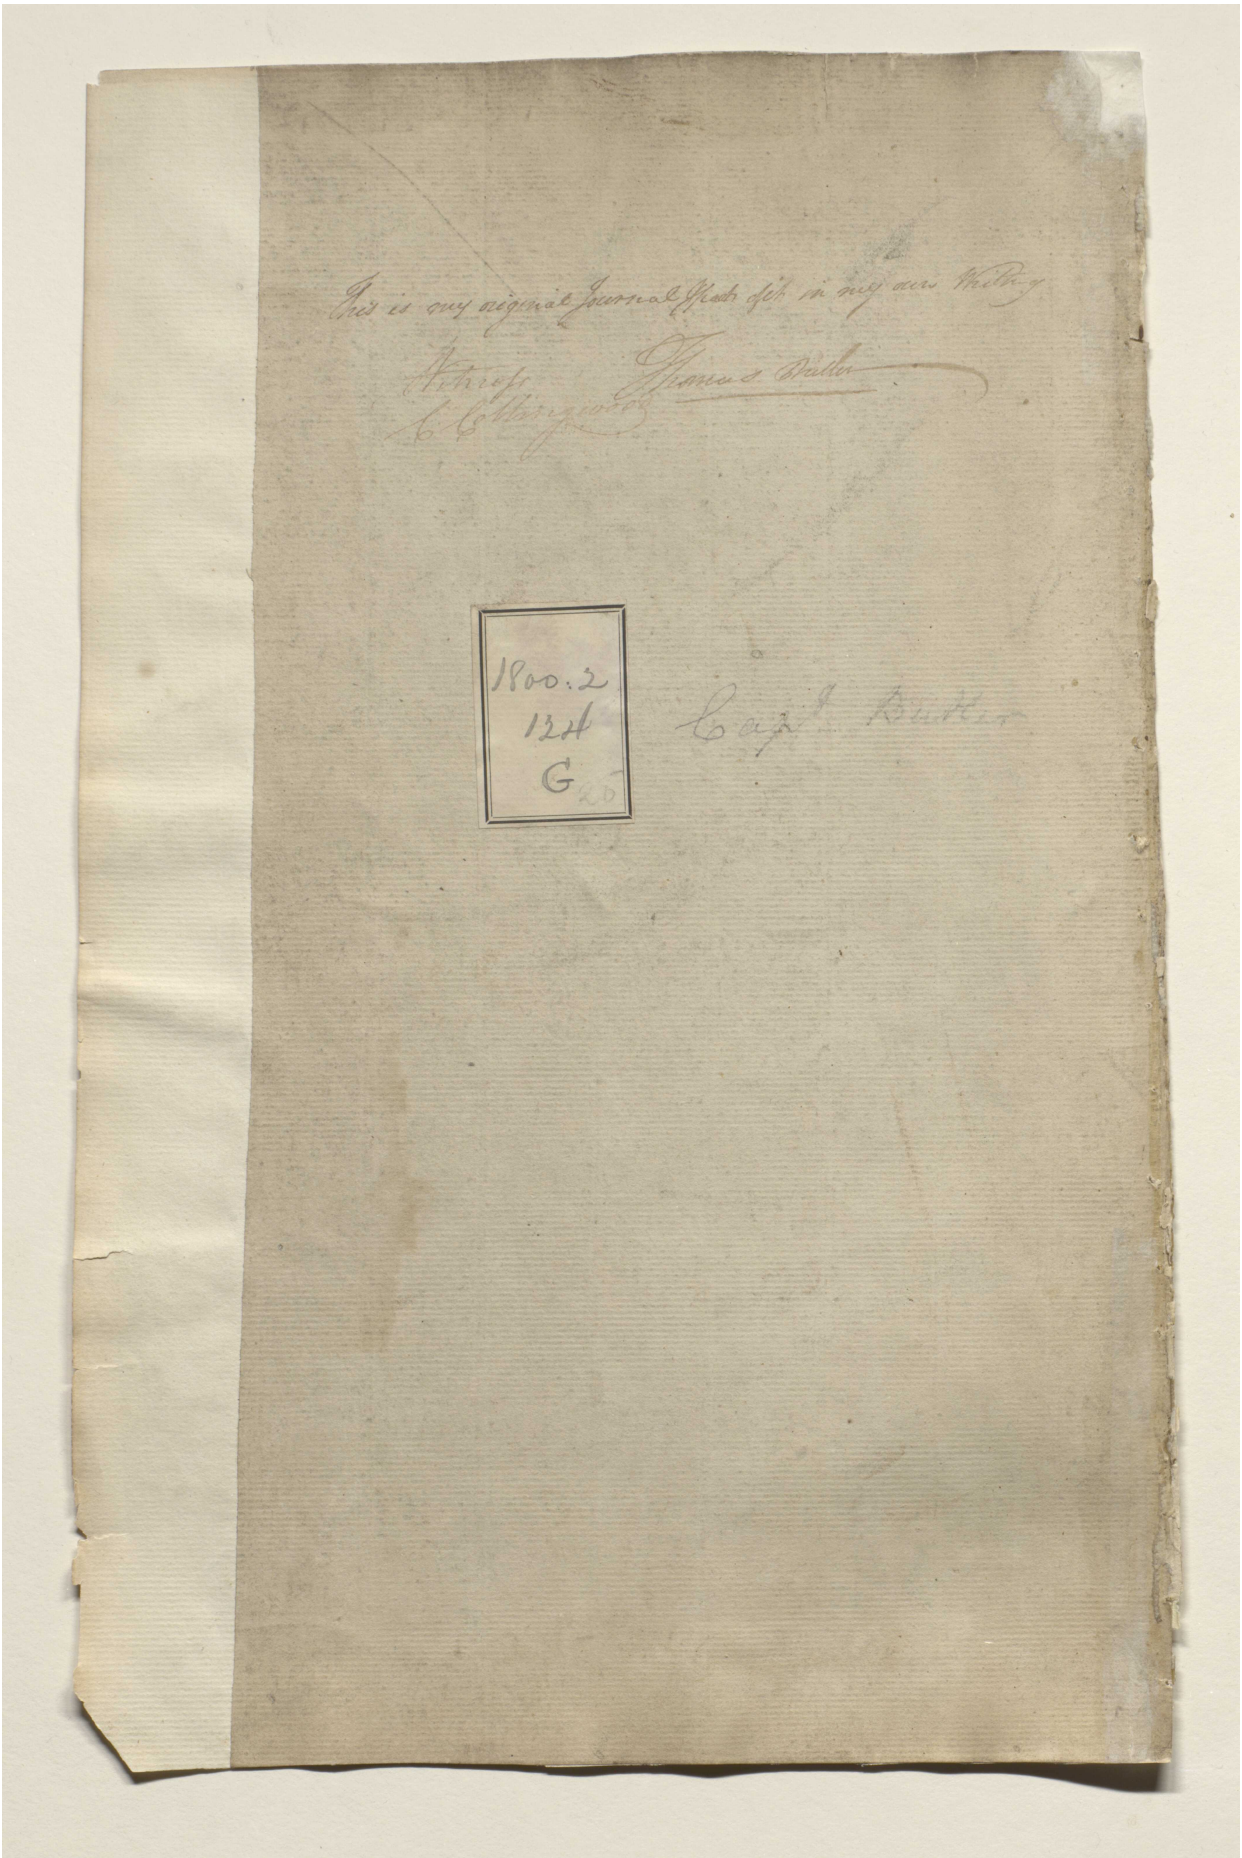

remarks, and navigational observations. When the ship is at anchor the entries consist of remarks only. Information provided by these notes includes observations of weather and currents, sightings of land or other vessels, employment of the crew, and other miscellaneous remarks.

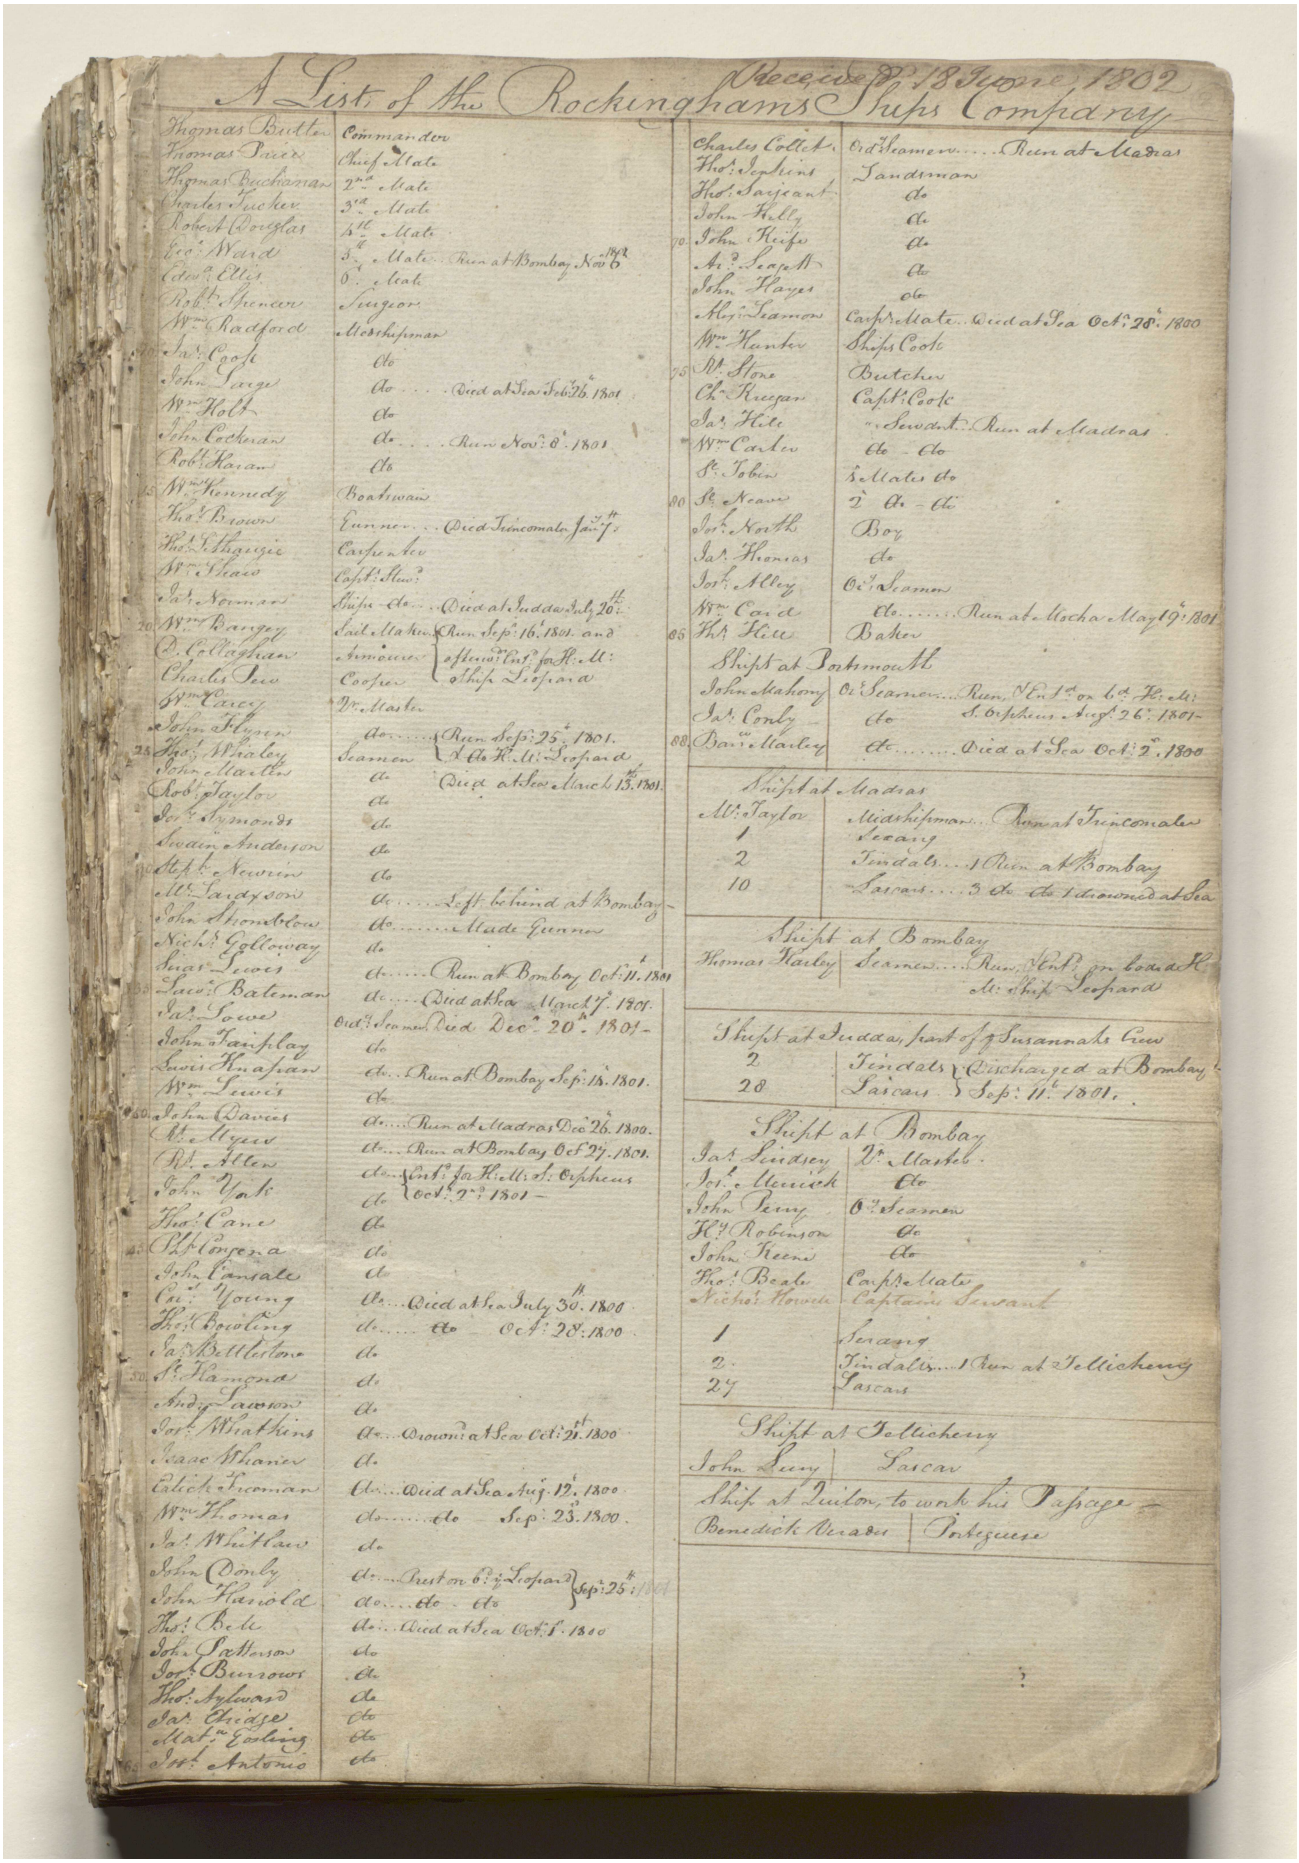

General notes towards the rear of the journal indicate that the ship stopped at Bombay on at least one other occasion, with remarks covering the period 6 October-15 November 1801 (folios 132-133).

There are two different entries for 23 January 1802: one on the verso of folio 95, which is out of chronological sequence and appears to have been added in error, and one on the verso of folio 99.

Tuesday 28th October 1800

Departed this Life Thomas Bentley Esq.r Surgeon. Committed his remains to the deep at 4 P.M.

At Pleasant Breeze, some squalls in the first part in one of which the Condore carried away his F. T. Mast which he observed at 7 P. M. shortened Sail in Consequence. the Wind appearing settled at N.W. I think I shall request of the People at Acheen, as long as the Bengal Ships stay there, for they no Means think it prudent to risk meeting a strong Gale blowing on the Coast of Coromandel as high up as 12 or 14 degrees we are so well to Windward that it would not be correct at this Season making the Isle of Ceylon

Light Airs and Calms

At 6 A. M. The extremes of the Land SWbW to WbS what we take to be St Georges Channel WbW distance about 8 Leagues

At day light the Ck. of the Great Nicobar SWbS to WbN WbW 7 or 8 Leagues

At noon the Extremes of the Land NbE to WbS St Georges Channel WbW offshore 6 or 7 Leagues

The Sail Maker having repaired the 2d best Main Sail shifted it to the Yard on unbending the other

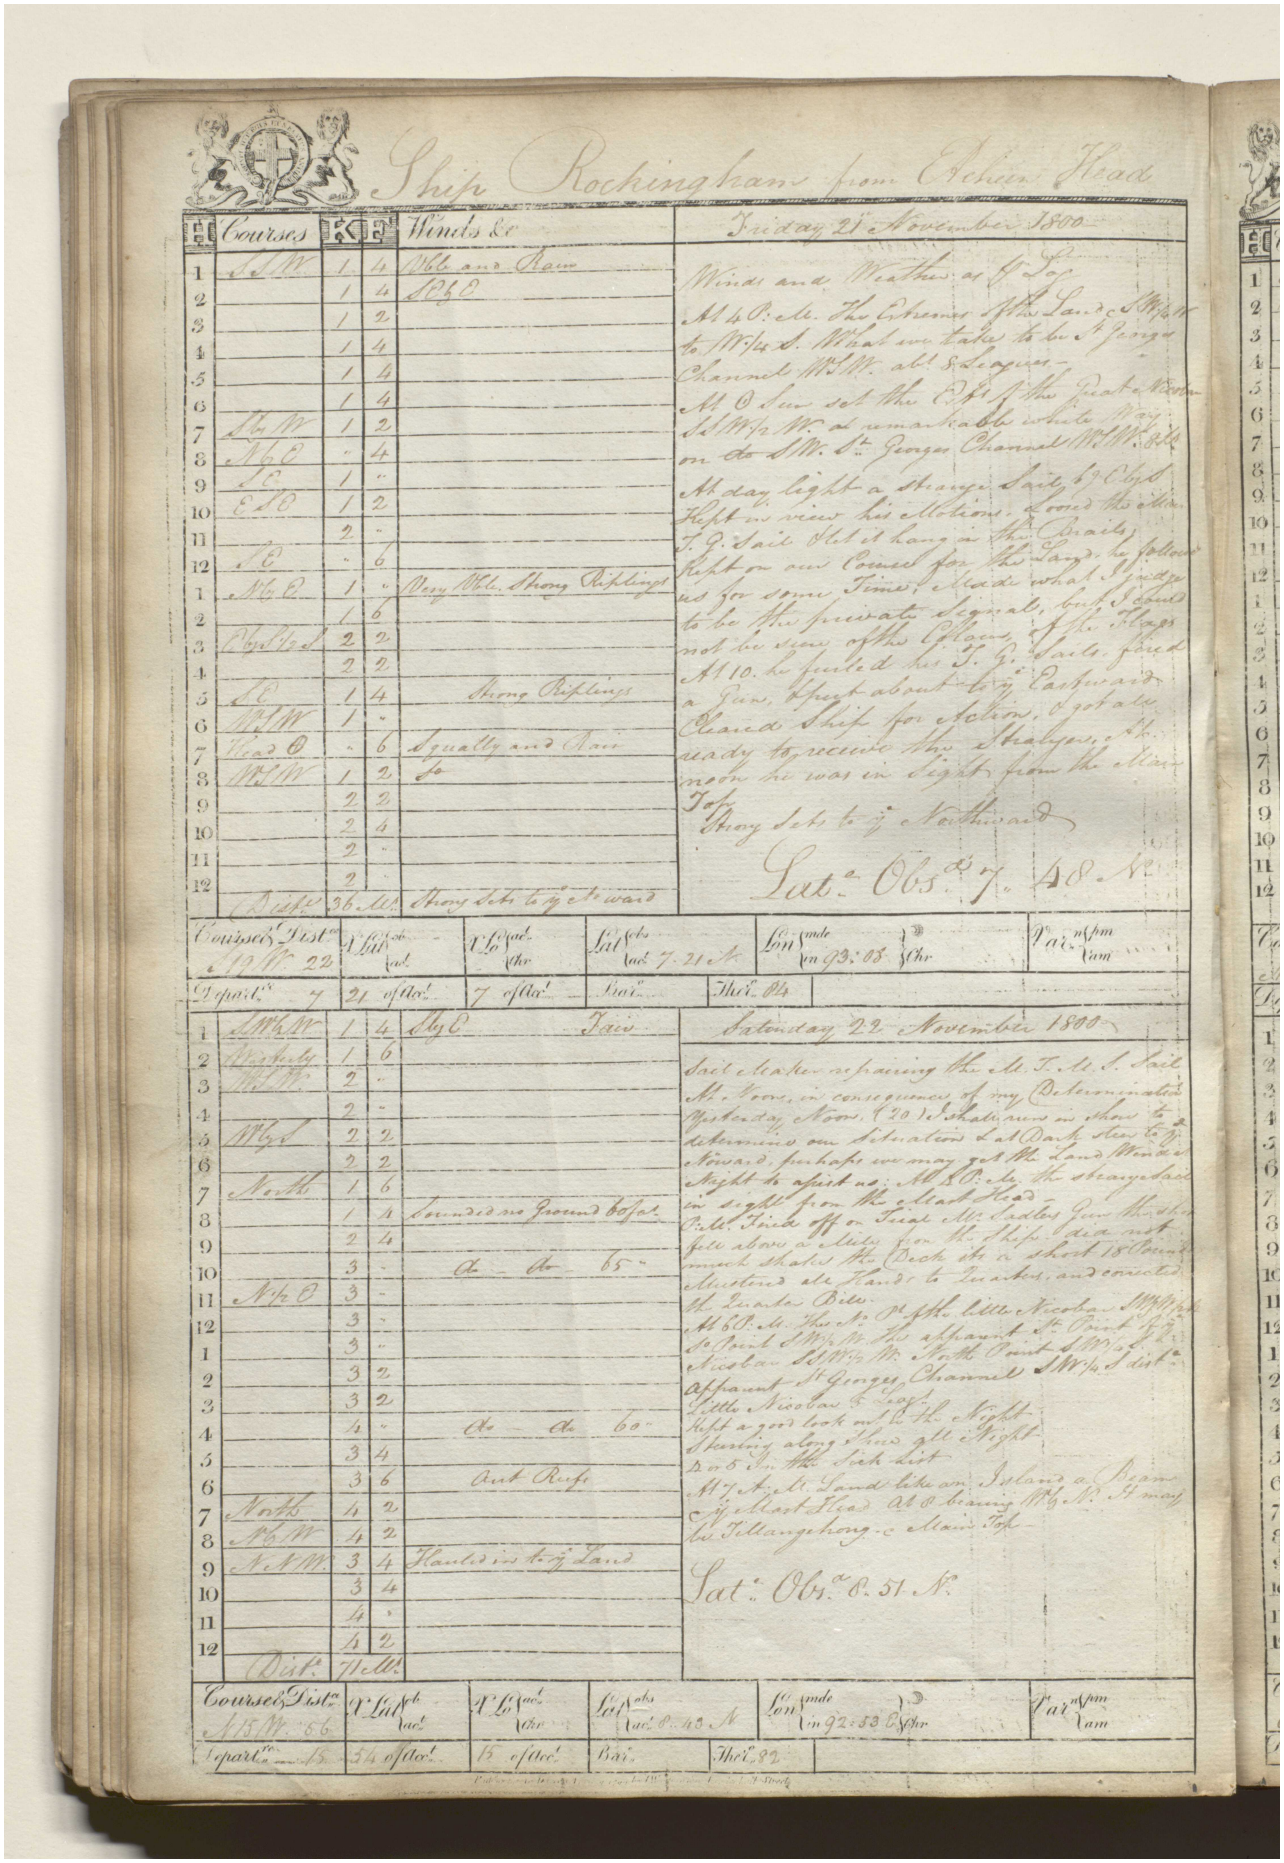

I intend if we do not get to ye Norward of Nicobar to morrow, should the Wind allow it to steer to ye Nor.ward thro' the Islands, between the Nicobars & the Andamans

Gunner painting the Side

Ship Rockingham from Pehang Head

Friday 21st November 1800

Winds and Weather as p. Log

At 4 P.M. the Extremes of the Land from S.W. 1/4 W. to W. 1/4 S. What we take to be St George's Channel W.S.W. abt 8 Leagues

At 8 Sun set the Extremes of the Land from S.S.W. p. W. a remarkable white Bay on do S.W. St George's Channel W.S.W. 8 Lg

At day light a Strange Sail to Windward kept in view his Motions. Found the Strange Sail Set it hang in the Braily, kept on our Course for the Land, he follow us for some Time, made what I judge to be the Private Signals, but I cannot be sure of the Colours, at 10 he fired his S. Sail, fired a Gun, Kept about to the Eastward, Cleared Ship for Action, & got all ready to receive the Shalyes, at Noon he was in Sight from the Mast Head

Fore Story Sets to y Northward

Mr Gellies (Passenger) Conduct having been extremely improper for some time past towards me, and the Regulations & Rules of the Service evaporated under the Hazy Weather of Several Passengers & others on board the Ship; I with the Unanimous Opinion of my Officers conceived it necessary for the good Government and Subordination of the Ship in her present Situation to put Mr Gellies under an Arrest till his Conduct should be made known to the Government of Madras so that he may be debard from his Arrest on Board

At day Light saw a Sail standing towards us, directly chased for her at 7. She hoisted Danish Colours but down to them. Sent Mr Buchanan 2d on Board. Found her was from the Cape Nicobar (last) bound to Madras 11 Miles set to ½ Norward

Friday 5th December 1800

Pleasant Weather. At Noon Ha off Shore and saw Table we got Sight of the Tops of the Houses, then stood in again. At Midnight off the Old Anchorage bore S.W. & S.W. determined to stand off & on till day light so as to pick a good Birth for anchoring, and delivering our Cargo with haste

At 8 A.M. anchored about ¼ Mile from the Fort abreast the new Custom House at Black Town in the course of the Day veered to a whole Cable moored with an Iron Hawser & Hedge to the Shoar, & in Shore, by which we are ready to slip the W if a Gale comes on. The Storm Stay Sails set. Boats rigged &c.

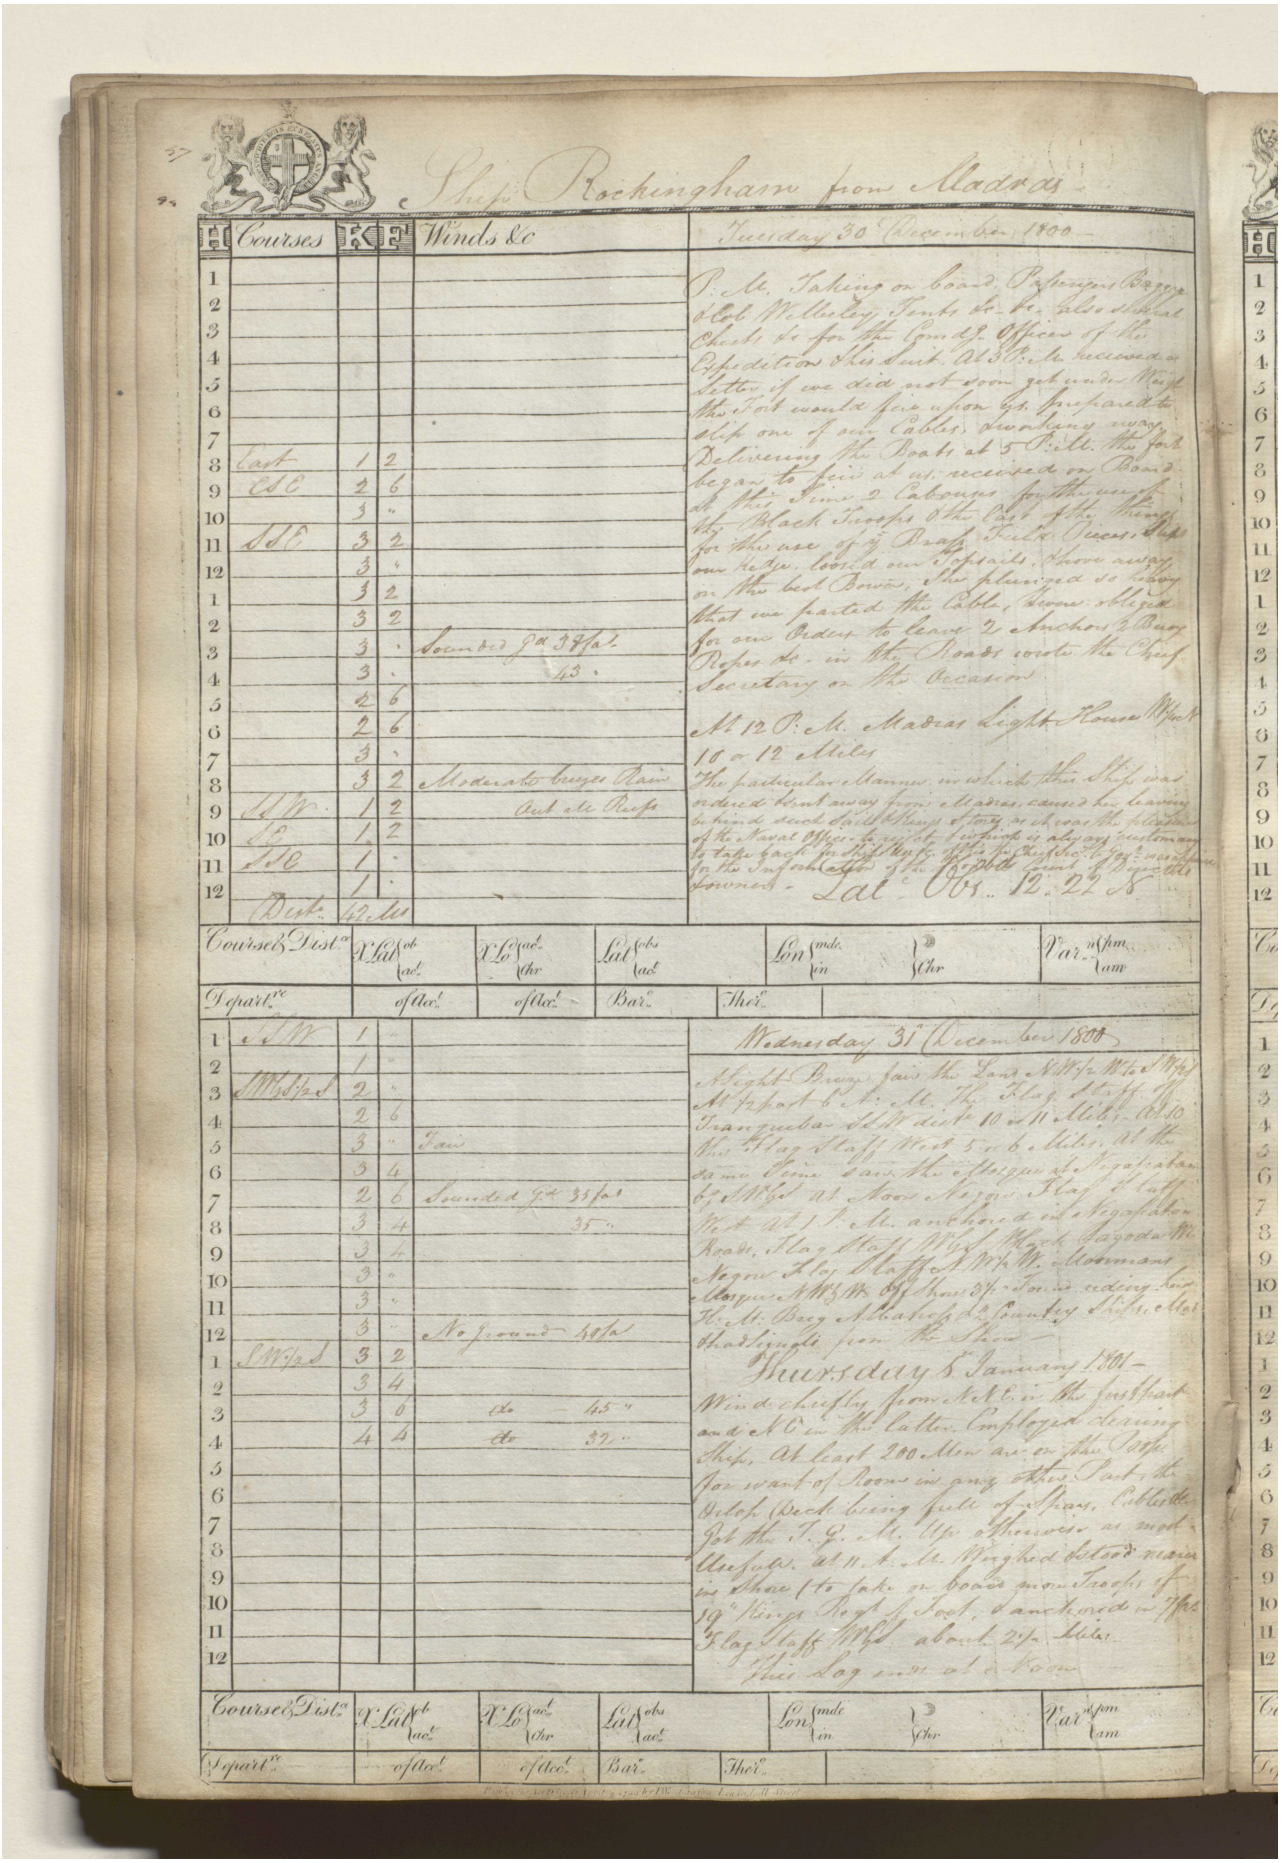

Sent. many of the Passengers going on Shore with their Trunks &c.

The Flag Staff bears W.S.W. The Custom House N.W. St Thomas Mount S.W. Off Shore about ½ Mile Saluted the Fort with 11 Guns which was returned. We had no Boats on Shore, working to Windward the 24 Hours, the Strongest Current I think we have met with 15 Ms. Ms Leagh from the Coast.

P.M. Taking on board Passengers Baggage &c. &c. Wellesley Tents &c. &c. also Medicine Chests &c. for the Comd.r Officers of the Expedition on this Service. At 3 P.M. received a Letter, if we did not soon get under Weigh this Port would fire upon us. Prepared to slip one of our Cables. Swarthy away. Delivering the Boats at 5 P.M. the Fort began to fire at us. received on Board at this Time 2 Cabooys for the use of the Black Troops & the last of the Troops for the use of the Brig. Fired Guns. Slipt our Cable, cast off our Sails, drove away on the best Bower. She planned so heavy that we parted the Cable, were obliged for our Orders to leave 2 Anchors & Buoy Ropes &c. in the Roads wrote the Chief Secretary on the occasion

At 12 P.M. Madras Light House W.b.N 10 or 12 Miles

The particular Manner in which this Ship was ordered sent away from Madras caused her bearing in hands such Sails & Stays as it was the pleasure of the Naval Officer to order, although it is always customary to take back in Ship Ways for the Pilot to go ashore for the Ship's Papers &c. & Dispatches of the Commander in Chief & Paymaster &c. &c. &c. Monday 23d March 1801

The first part a light breeze, Middle Watter as Sloop. Stood in Shore, but could not Weather the Brigole Bank. At 6 they tow'd. At 8 d.o at 12 do Fd a Brig in Shore meeting us on the other Tack just in dark She made a Signal to Leeward & Hoisted a Ly Colours, as we think an Enemies, however it became proper to clear for Action. would not Answer, she continued in our Wake, & Fired several Guns. Made the Admiralty Signal which she did not answer. Kept nearly close on our Weather Quarter. We then hailed her, She proved the Wallace, late L'Adelle. French Corvette bound to Bombay with Dispatches. Received a Pledge from the Wallace Stood to N.W. & W.N.W. at 2 Tacks alternately. At 8 Day Work

Ship Rockingham from Ceylon

Wednesday 25 March 1801

A moderate Breeze throughout. Filled Salt Water to trim the Ship.

I was in hopes from our having run 2 to 3 Points to the Nowards of West after we first about at 11 P.M. that we should have got 25 or 30 Miles to y Nowards but we have only got 14. The Current strong against us as yesterday P.M. Glad we have a good Offing shown which surely will carry us to Windward off the Pingola Rocks on the Laccadive Sack

A.M. Washed the Gun Deck

This day I allow nothing for Curr.t have had 15 L.

Ship Rockingham Mocha Roads Red Sea

Courses | Winds &c

Saturday 16th May 1801 Continued
dispatched 3 Empty Buts in the Bullock Boat, Several empty
Butts from the Harbour Waist Boat have dropt the Kedge to help our Hawse Clear
at Night but Tides and Times from the above Butts: Our People that have done Duty
lately much Tired & ill in Consequence is Sickness very fast This day contains 36
Hours and at 8 Sunday 17th May 1801 Therm: 9 AM. 84: 9 PM. 86:
The Wind in the Night Veer'd sudden that we could not help her going round her
Anchor & at day Light blowing very fresh Preparing ready our Empty Casks, Got the
Harbour Waist Boat for the Seventh Butt before the Cabooses. Cleared the Larboard
Night Watch Received Three on Board Hove up the Boat & Sail'd the Water we could get. One Boat
of which was sent away with a Receipt for taking on Shore Empty Butts for the Boat
of Water & Slept & Sick in Consequence on Shore Hove up the Best Bower Stream Foul
Set go the Signals in it Slept & veered away to 6 Fms Set go the Kedge to Steady her
& Sick be from Keeping her Anchor again - Received a Letter from the Surgeon
respecting the Sick & otherwise properly employed. Moved here the Susannah's
Hoved Signals between 9 & 10 P.M. Therm: 9 AM. 85: 4 PM. 89

Monday 18th May 1801
Wind from the S.W. & Cloudy, Preparing for Sea, Taking on board Stock for
myself & Crew, Receiving Water, Unmoored the Susannah's Tanks have leaked
out, which makes it necessary to Heave have some of our Butts, Kept the Kedge
out the Wind being against us, our Sick List increases very much, Our
Officers & Both Men down, Answered the Ships Signal to prepare for
Sailing - Received a Letter from the Officers

Course & Dist.ce | X Lat.d obs. & ac.t | X Lo.ge ac.t & Dr | Lat.d obs & ac.t | Lon.ge mde in | Dr | Var.n & m | Depart.re | of Acc.t | of Acc.t | Bar.r | Ther.r

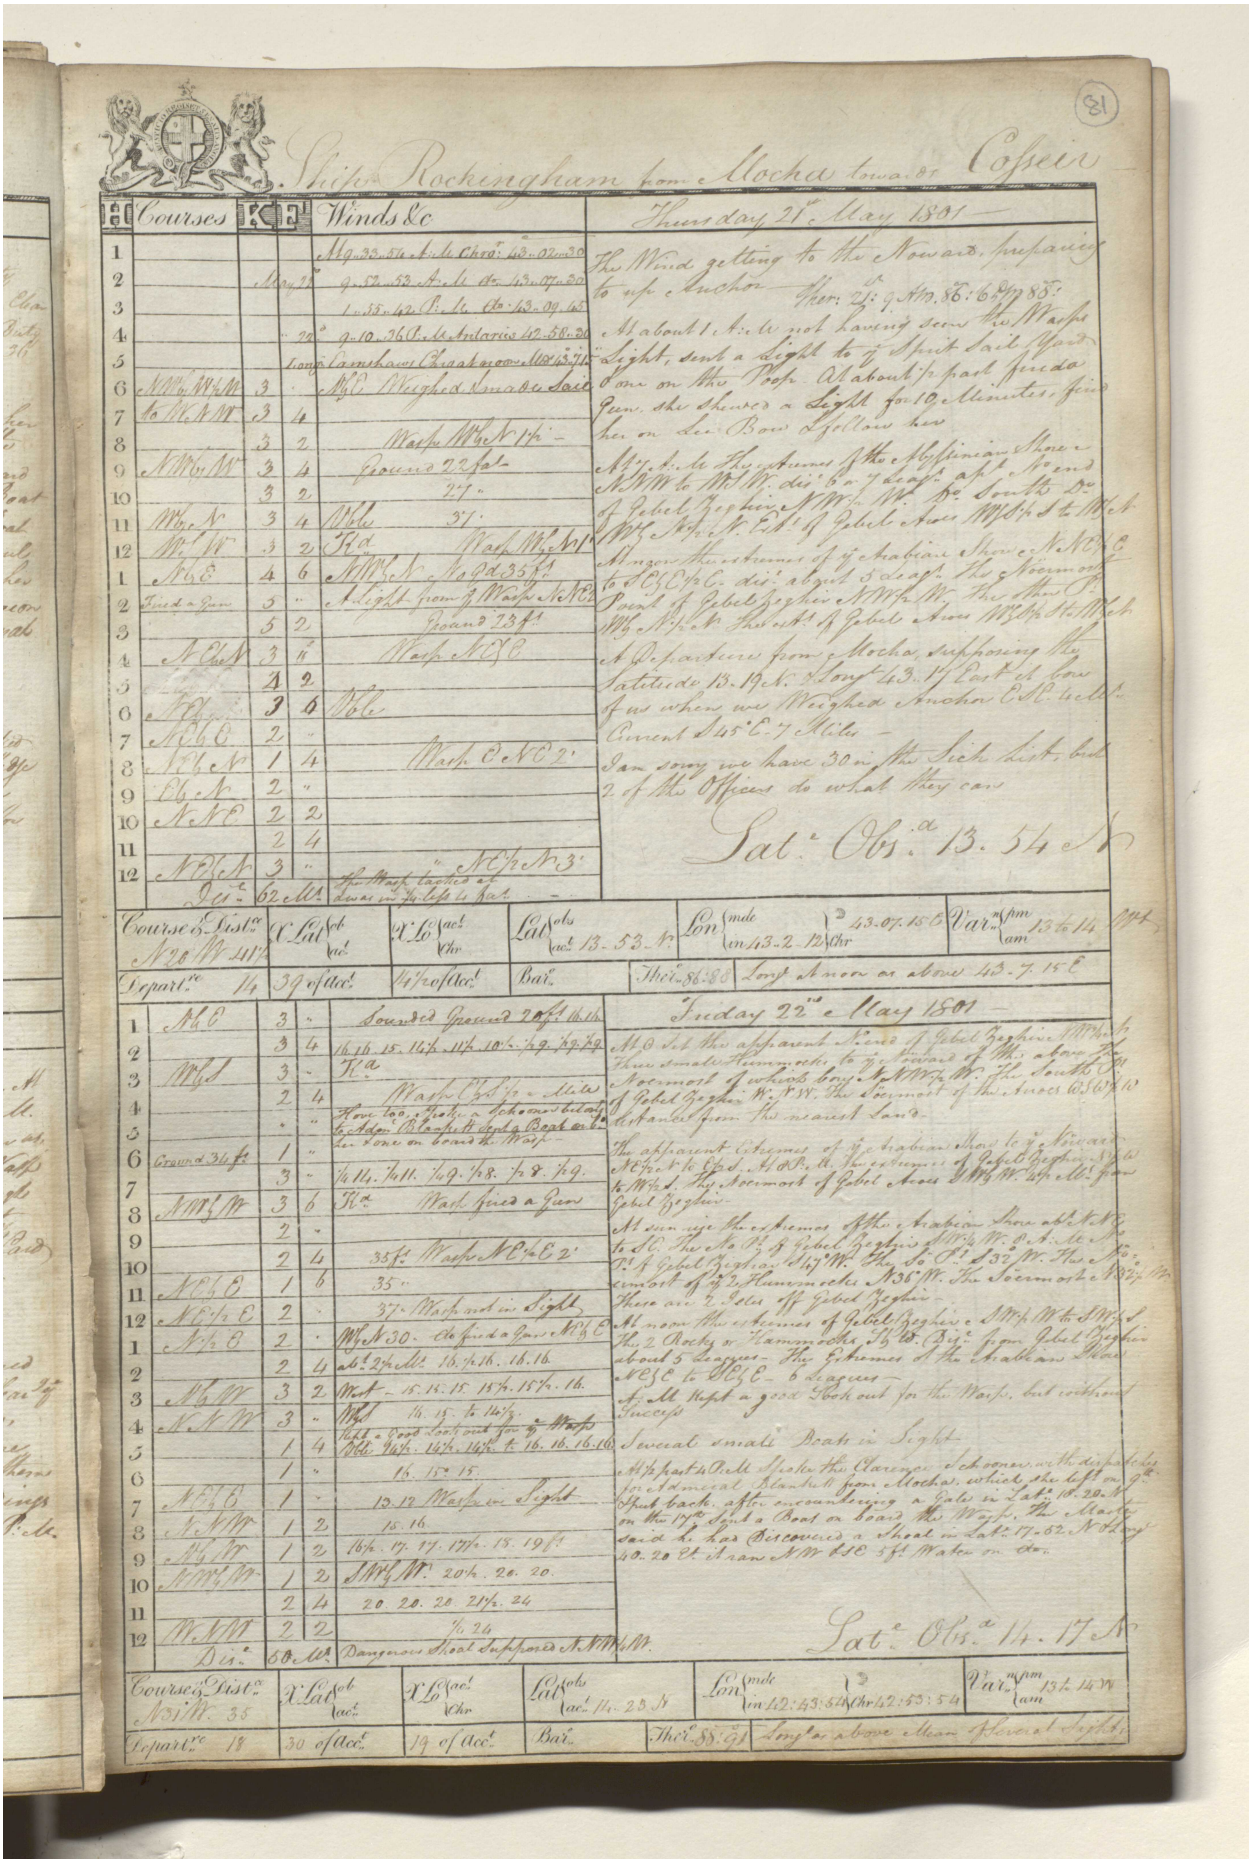

Tuesday 19th May 1801 Therm: 9 AM. 87 6 PM. 88

Winds & Weather as yesterday, Took up the Kedge Anchor to be ready for Sea, At
at 6 A.M. the Watch made the Signal to weigh, Got all ready, At about 10 A.M.
The Watch got under Weigh & Continued so for 2 Hours, After Anchored near as
The Current & Wind being against us. Received a Signal from the Watch
when the is Shoal Water under 4 fat a Blue Flagg. When Water enough
for us a Red Flag Received Some more Water, Sent away Empty
Butts for the Susannah's Pynn from our Jolly Boat. William Reid
Ord.y Seamen Sent several Letters about finding Shoals & Shoal &c.

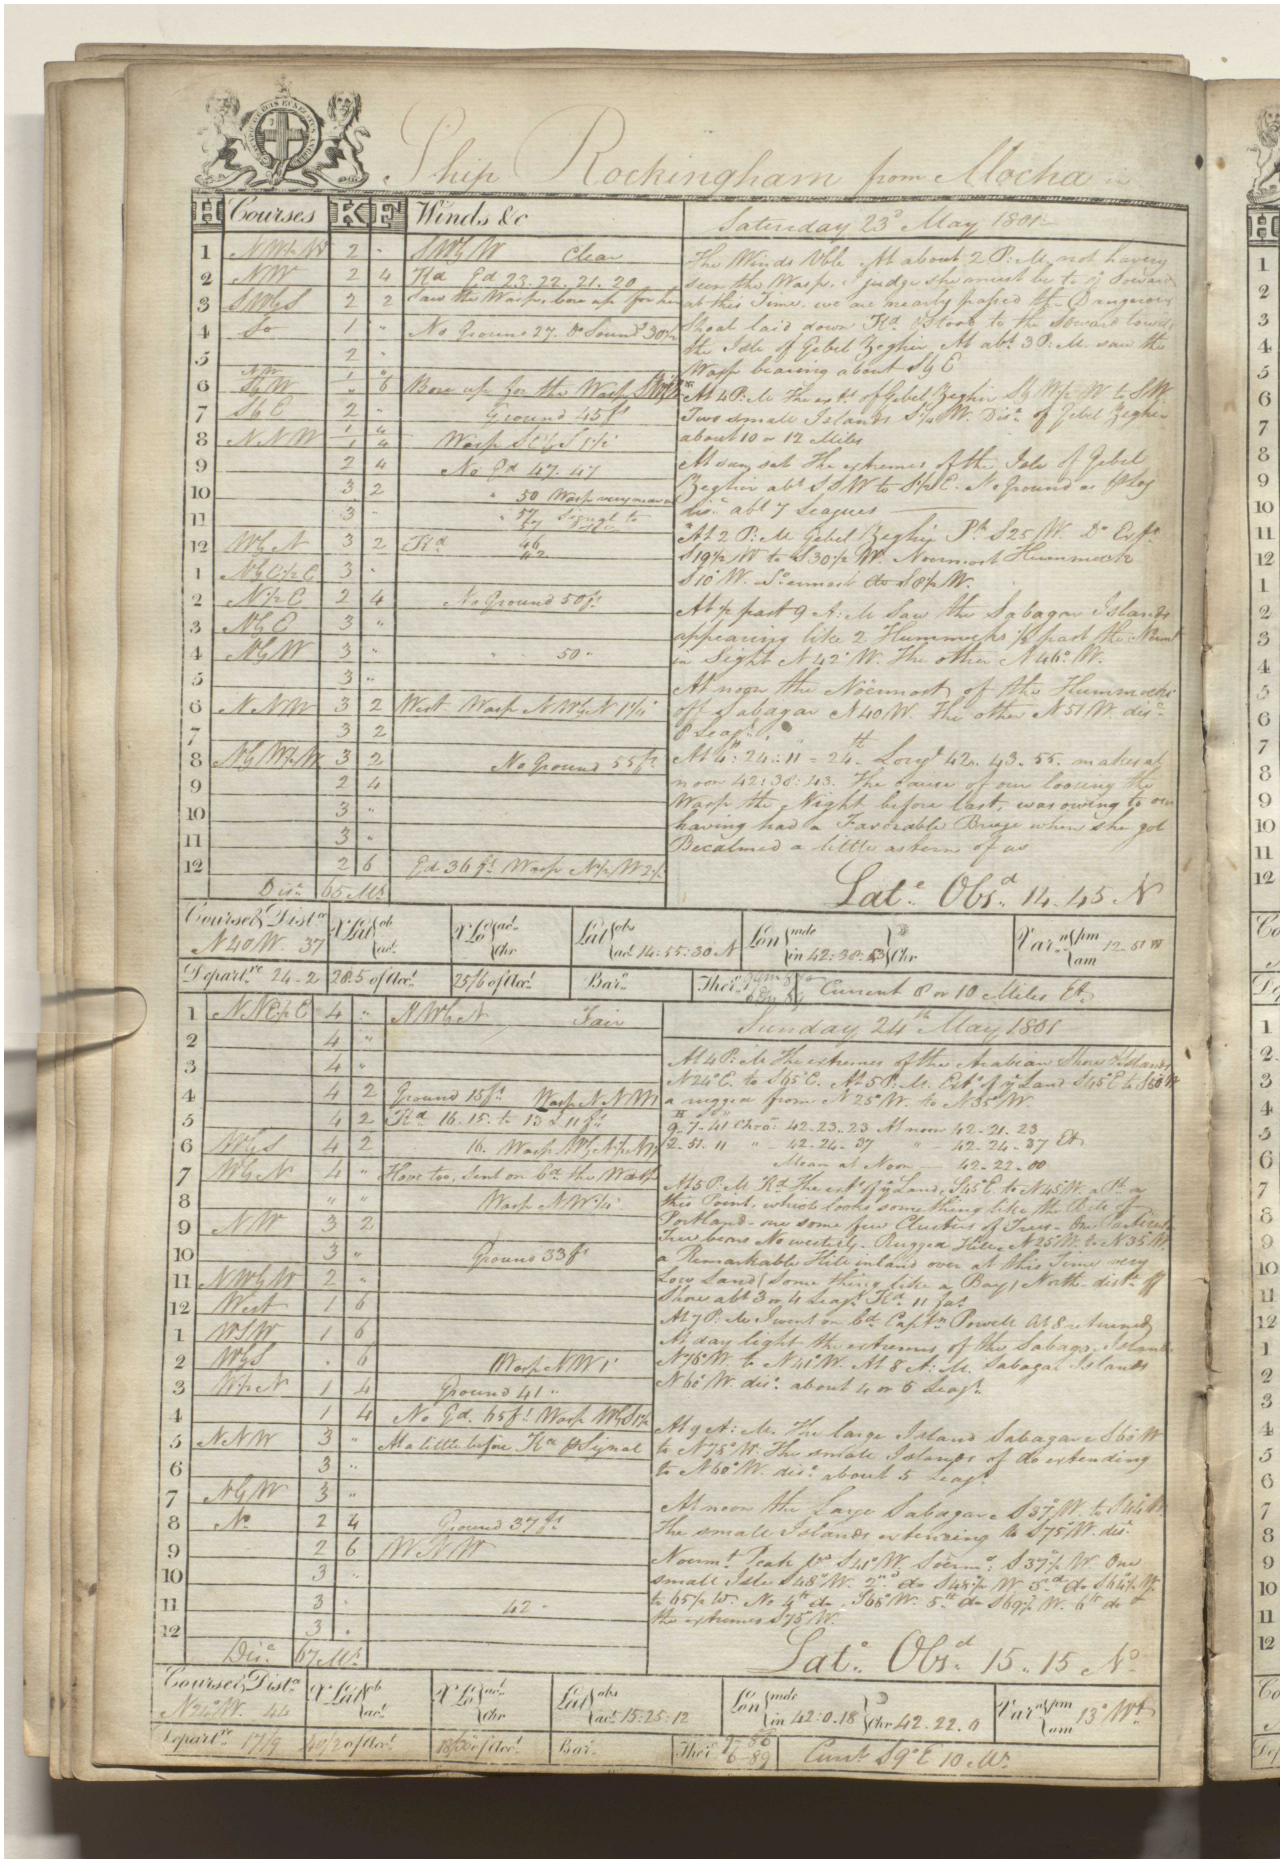

Wednesday 20th May 1801 Therm: 9 AM. 85 6 PM. 89

The Wind nearly the same Strength The Watch got under Weigh, but anchored
again to Leeward. We determined to help fast till Better Luck, Clear'd
Decks Made a Pen on Deck for the Bullocks, The Sick List increases
Answered the Officers Letter to me, The Boy now is secured on Shore,
At about 1 P.M. The Signal to weigh, Loosed the Sails, Shifted them
Yards & Weighed, The Watch ahead with a Red Flag up, Soundings
5. 5 fm. 6. 7. 5 fm. 7. 8. 9 fm. 8 8. 9 fm. of the Ships Head good W.N.W at 8 P.M.
Clear out

Monday 1st June 1801 -

At 3 P.M. we were on ye look out, for some Islands laid down about the Lat. we were in at Noon, & at this Time ye Mast Head saw very low Land, like a Sandy Isle, nearly Ahead from ye Mast Head just before we first saw a Sandy Isle, Set Ground 36 f. at 4 o'Clock when abt saw another Island to ye Southward of ye Sandy Isle with apparently very low Trees upon it. At 5 o'Clock the Body of ye Sandy Isles bore abt S. by E. Distant 5 or 6 Miles with Reefs something appearing to Windward. The Breakers abt 5 or 6 Miles to ye Westward. The Land appeared as high as the Breakers to ye Westward of the whole may be about 2½ Ps. What is to say from abt S.S.E. to S.W. a small Space being observed between the Sandy Isle & the Isle with Trees. The Distance 7 or 8 Miles at most. The Wasp must have seen ye above, for she Ha an Hour before we did.

In ye Directory 2 Low Islands are mentioned in the Journal of ye Lascar when in Lat. 17. 57 N. about W. of Gubal Tair 1. 11 to N.E. & N. 10 Miles which Place them on about Lat. 18. 08 N. Long. W of Gubal Tair 1. 7. There are most likely the same the two differ a few Miles Mean of both makes them in Lat. 18. 02 N. Long. 1. 08 W. &c

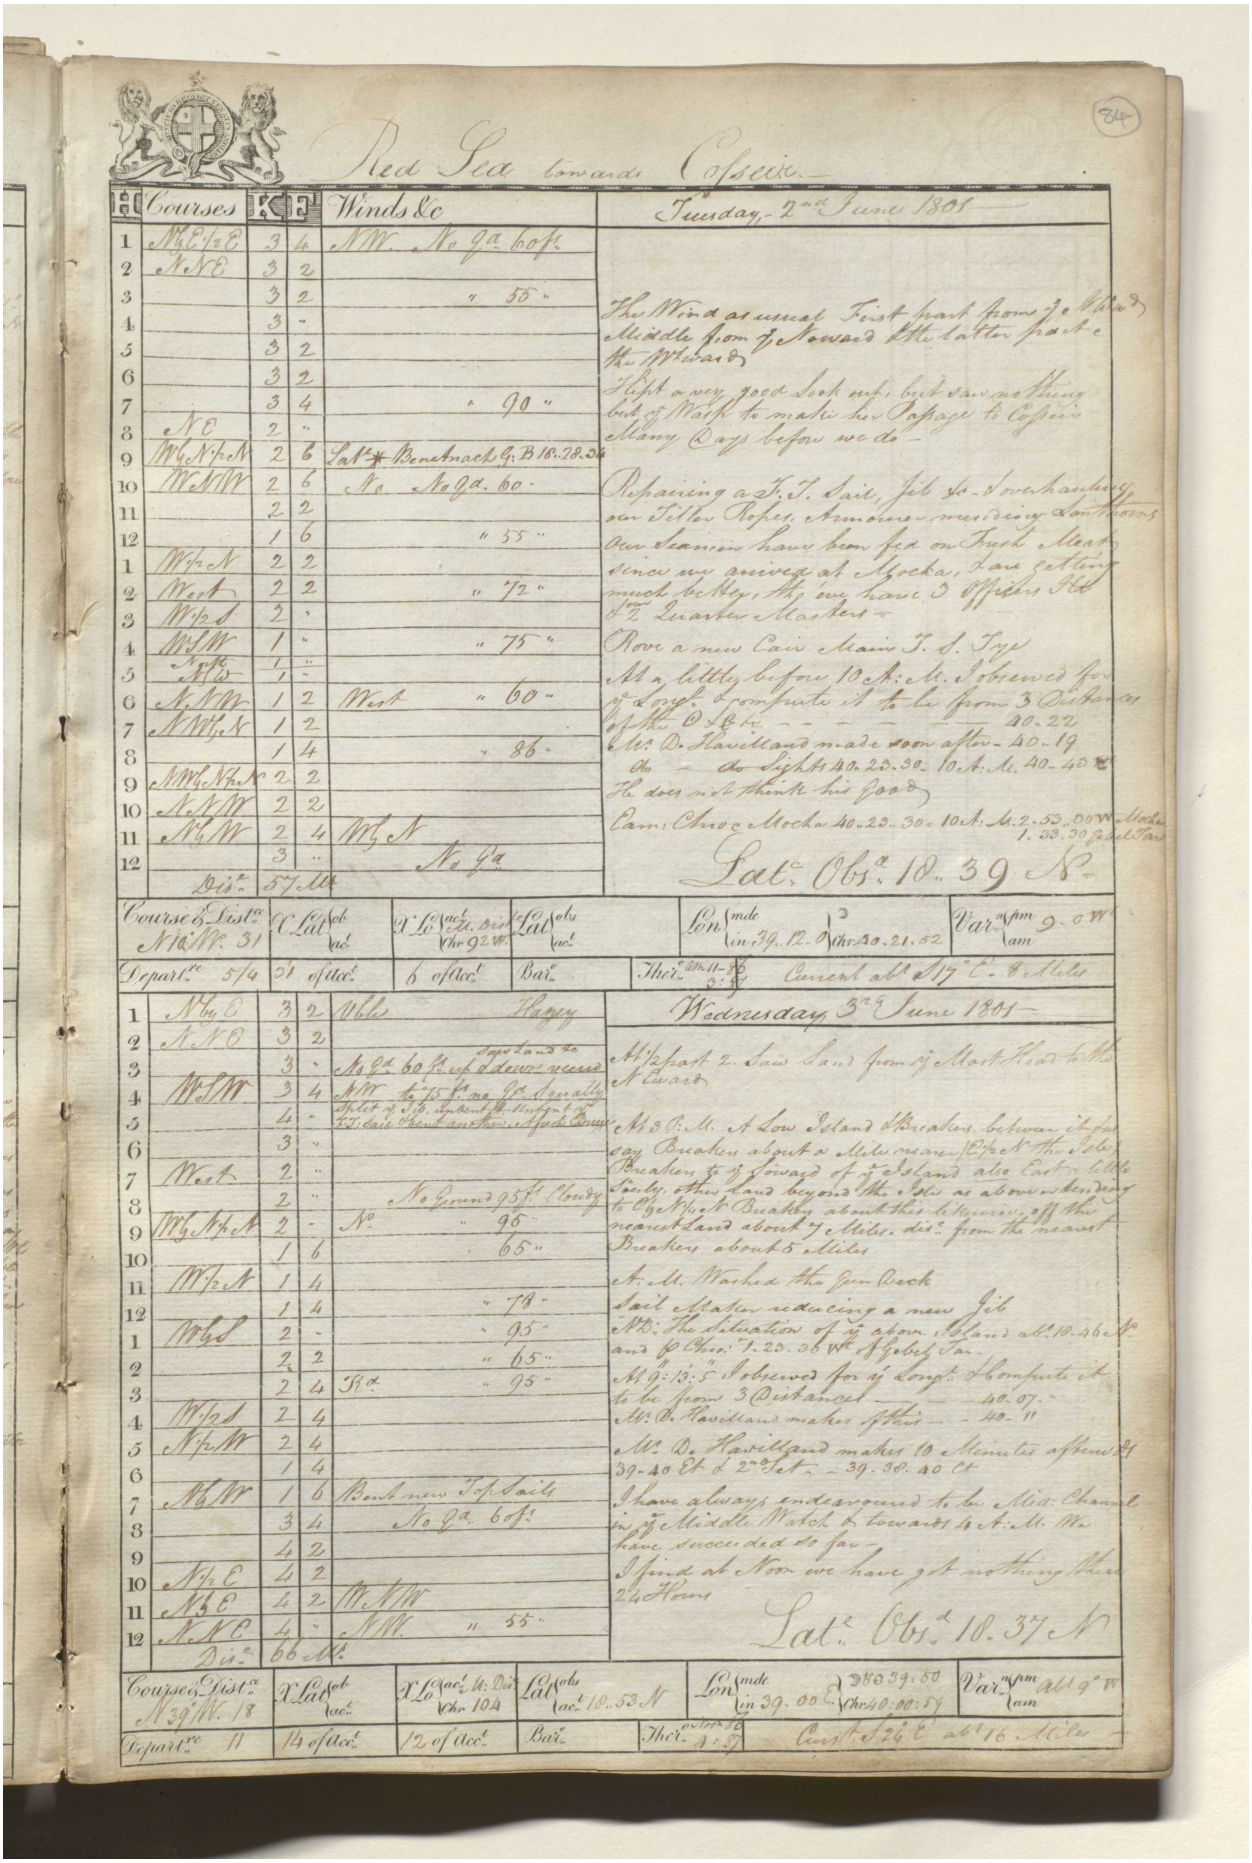

At 4 P.M. The Wasp out of Sight ahead
Got the Power Anchor higher up, Secured them better
Sail Maker repairing a Fore Top Sail
Kept a very good look out
The Position of the R.M. Lat. abt 17. 58 N.
W. of Gubal Tair 1. 4. ¾ from Mocha 2. 24. ¾ W

Wednesday 10th June 1801

First & Latter Parts a Moderate Breze Kept the Pumps going, & a good Look out Sounded as p Leg as the Shins in genral the Wind increases, & as it fall the Wind decreases Some Times no Clouds are to be seen, at other Times it is very Cloudy, for the last 4 Days the Weather is often very hazy Some Times we have very Heavy Dews at Night

The Ship much by the Stern, in Consequence of the Water we use from Forward, but I judge it better, not to fill any Salts in the Bottom —

In Comparison we are Healthy, to what might be expected

P.M. Called a Consultation of Officers, it was agreed unanimously to endeavour to make Giddah, waited on Major Bale the Commanding Officer of the Troops on board & informed him of the same the Ship's Every Person on board has had a Wonderfull Escape

Friday 12th June 1801

The First part a light Brize, bore away till we observed the Sharp Sail in the apparent Sack, then lay too, N 3. We spoke a Grab (Monabbers Captn White) who had taken out of a part of ye 80th Regt on board, taken out of Marza Louisa Transport at Bombay; left Bombay 16th April & Mocha 25 May. She sailed with ye Sugannah bound to Cossier. Received a Letter from ye Officers giving their Opinion that the Grab should keep Company with us, & she saw us off Jeddah, took the Necessary Steps to carry this Opinion into Effect. At 4 P. M. Capt.n White came on board. At 7 P. M. he returned. Kept ye Pumps going.

At day Light saw ye Land E b N & E N E Distance about 8 or 9 Leagues.

Saturday 13th June 1801

Some Times we have had Squalls in these 24 Hours. At other Times light Airs. Kept a good look out, & are attentive to the Pumps.

P. M. Sent on board ye Grab 4 Casks of Salt Provision. Col.l Ramsay sent to Major Bell they would be glad to render us any Assistances. The Request was repeated that they would see us safe off Jeddah. I have great Hopes by bringing my Ship by ye Stern, we shall be enabled to find out the Damage our Cut Water & sustained, for I judge the Cutwater received a Greater Part of ye Shock, or else we must have gone down. A. M. Making Spare Pump Brakes & otherwise usefully employed. A. M. Several Boats in Sight.

Bravo's Long.e by Lunar Dist.e Morning 52:29E

P.M. The Bravo answ.d our Signal. Came down to us, wrote Capt.n Alexander that we had injured our Cut Water. Suspect it was by carrying Sail yesterday at Night. At the same time we lost Sight of the Comodores Light. Capt.n Alexander sent us one of his Carpenters Mates to assist our Carpenter

P.M. Secured the Bob Stays for the Night

A.M. Having the Armourer Shaving Fingers the Platers mended Yesterday, fixed them on the Bowsprit is secure again, for fear of an Accident brought it best to let the Armourer make 2 new Plates to go inside of former ones, the Carpenter put on a large Rope to keep down the Shape of the 2 Thimbles, which the Messenger had thro' in the fore part of the Cut Water

The above Work hinders Snapper this Day 2 of our Crew only Sick on the Butcher

This Bill

Rules and Regulations for the General Convenience, Shelter, Government of the Rockingham's Steerage, Apart of the Great Cabin. 25 June 1800

136

I Every Gentleman is expected to Turn out of his Cot, when Notice has been given by the Officer on Duty, That Six Bells have Struck

II Every Gentleman is expected to Observe, That his Cot is brought forwards to the Hatchway to be Handed on Deck by 7 Bells,

III The Gentlemen are requested to be Dressed, & Ready for Breakfast by 8 Oclock after which Hour No Washes, Towells, Boots &c must be seen Hanging, or Laying about in any Part of the Steerage, But it is necessary, the Steerage Should be Vacanted, Quit in Order during Breakfast Time.

IV No Gentleman is permitted to Wash himself in the Ladies Gallery after 8 Bells; Some Persons have been Observed to Resort to the Poop, for Purposes for which the Above Gallery is intended for, This must in no Manner be Practised

V Good Order & Decorum is requested to be Observed in the Steerage during the Day Time; Gambling is particularly Objected too" As it frequently the Cause of Disputes, &c and is setting likewise a Bad Example to the Younger Passengers, as well as Servants &c belonging to the Ships

VI Should a Misunderstanding at any Time take Place between any of the Gentlemen, It is recommended that an Explanation Takes Place, by Referring its Cause to a Third Person, who may be Chosen by the Parties Concerned, whose Opinion must Lead to a Final Adjustment.

VII At Dusk the Cots will be Handed down from the Decks Whenever Gentlemen is requested to Attend to Select his Own, and to see that it is Performed off in its Proper Place, At 8 Oclock the Cots must be Hung up, which Such Gentlemen as are employed in the Steerage, are requested not in any Way to Impede, At 9 Oclock Two Lights will be hung up, One Forward, The other Aft, which are deemed quite Sufficient for the Convenience of Every One, No other Lights will Henceforward be Permitted, At 10 Oclock these Lights will be Extinguished Gentlemen are therefore requested to be in Bed by that Time, as the Lights cannot be Replaced.

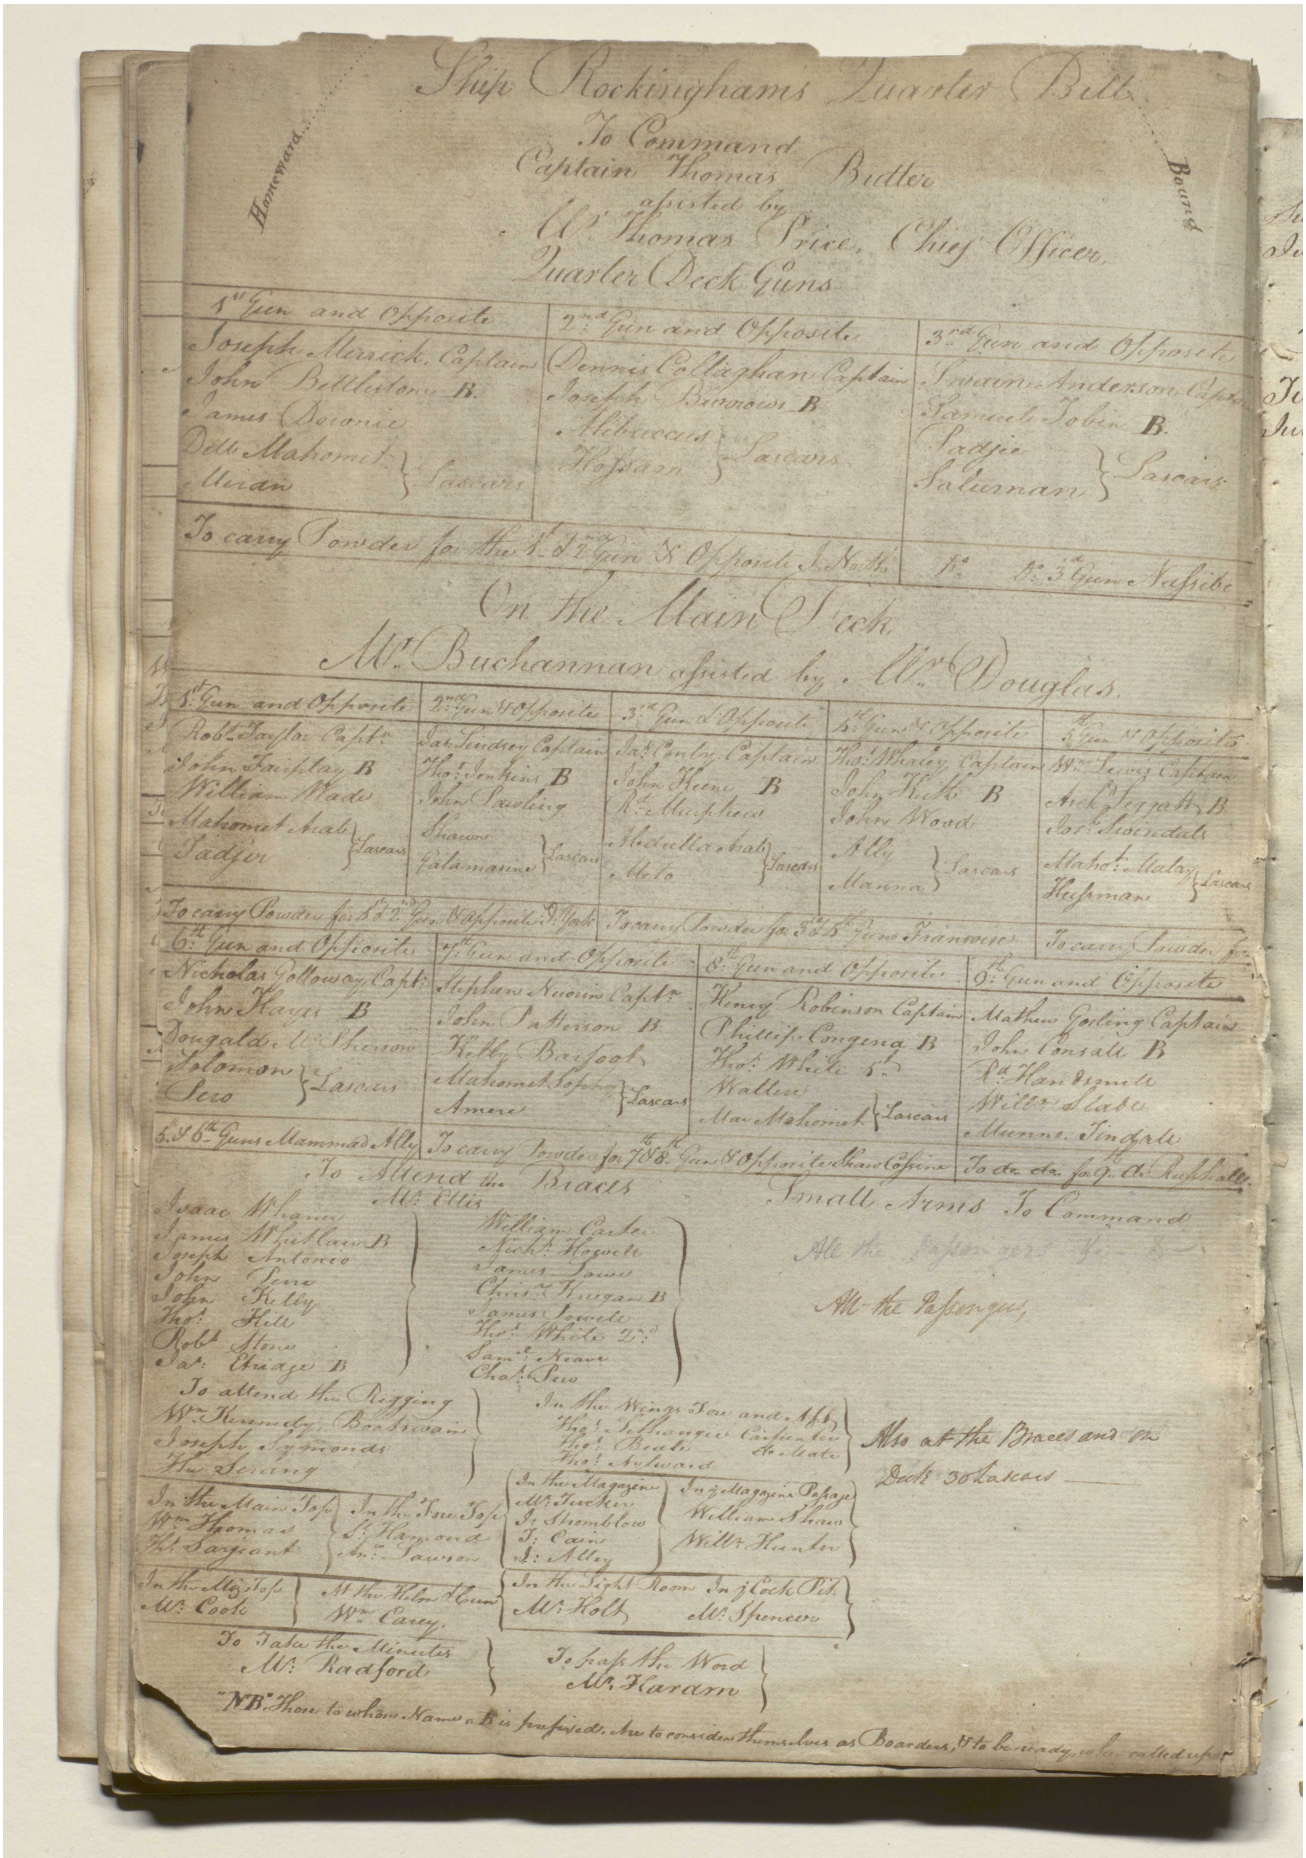

VIII The Strictest Quietness should be observed by the Gentlemen in going to Bed, did not the Order of the Ship require such a Regulation, The short Distance the Ladies are off, must be to Every One a Sufficient Inducement to to Modest Attention to the Above Rule

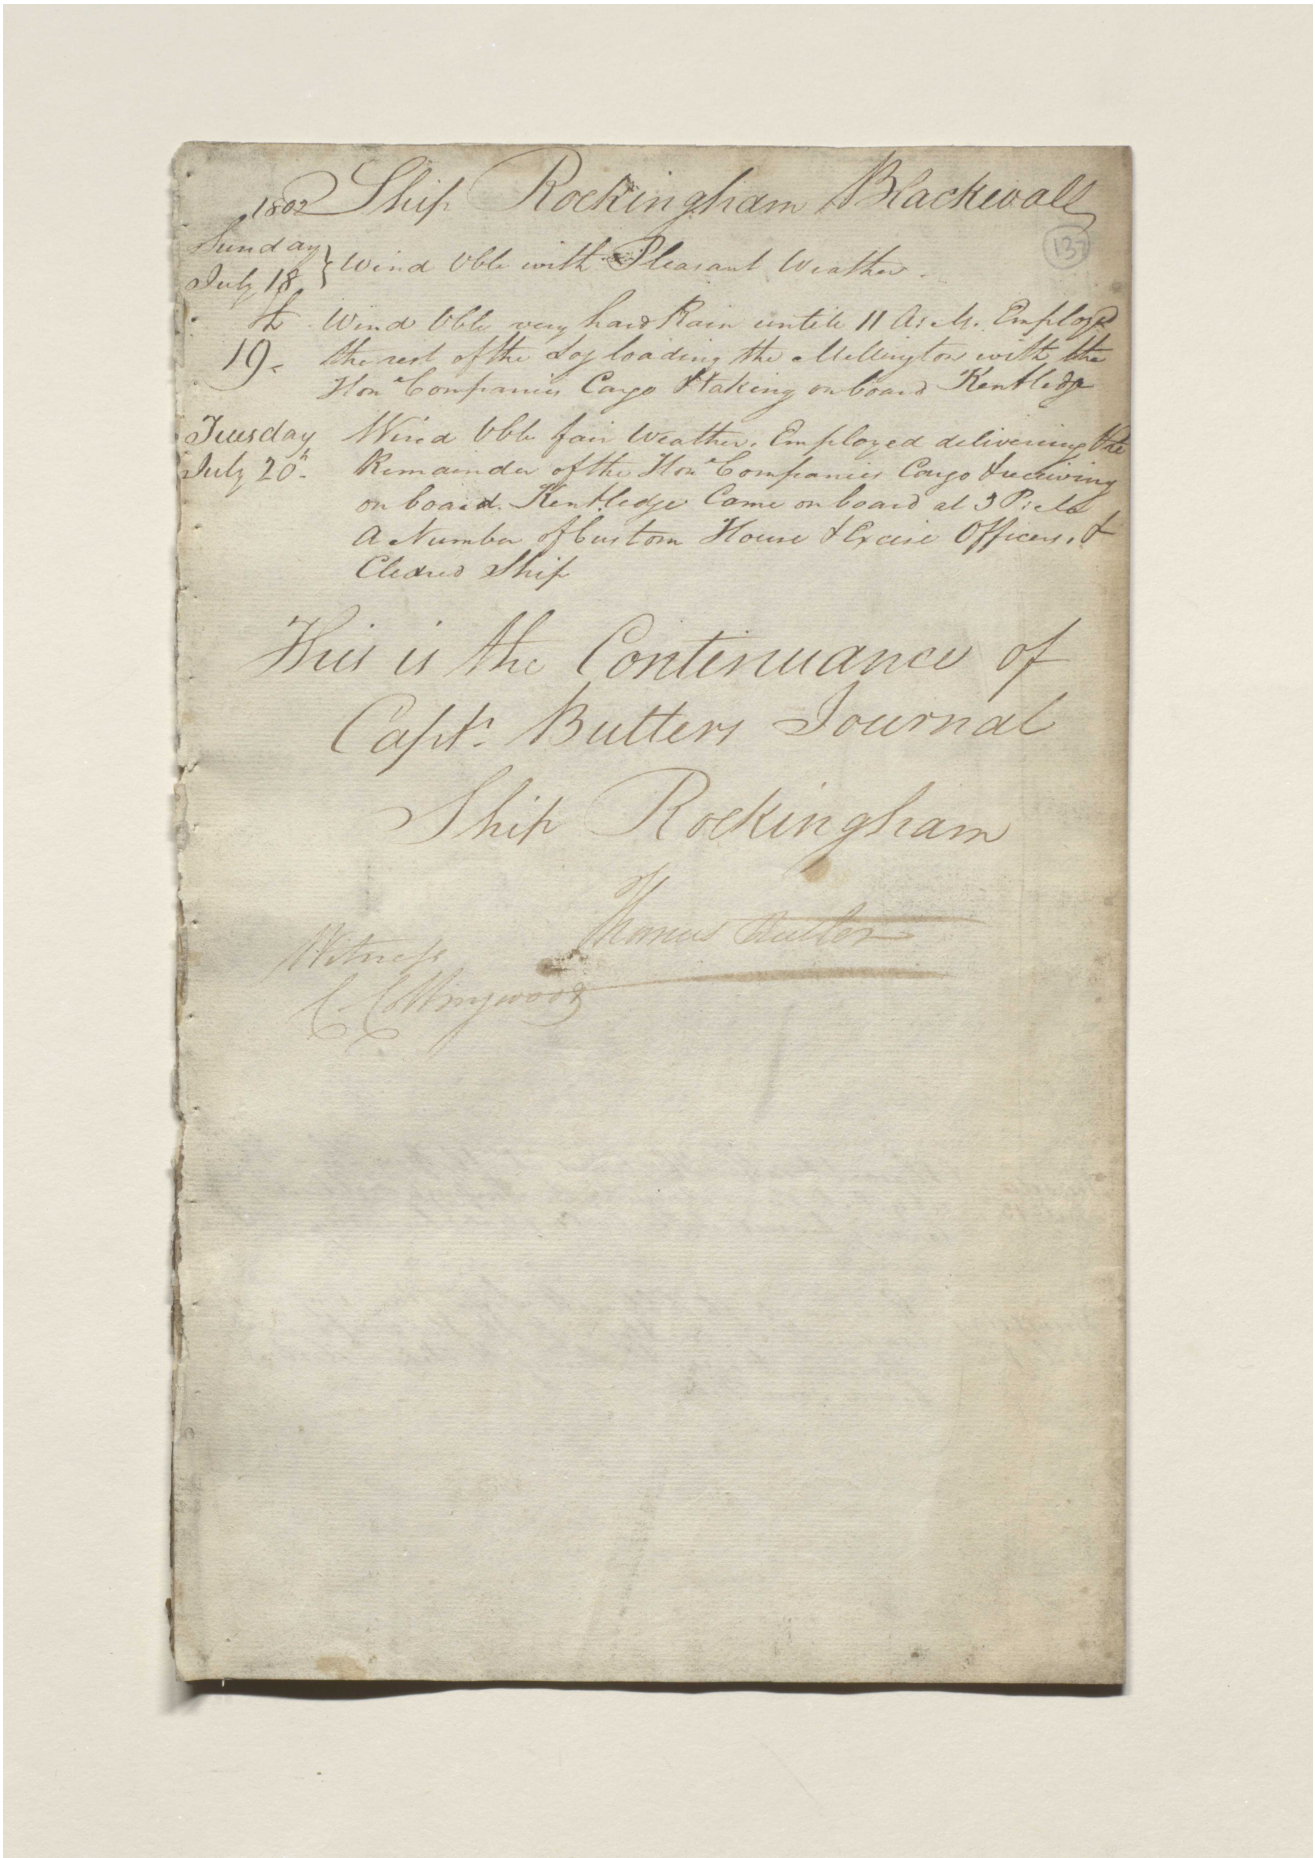

IX Gentlemen having Large Trunks in the Steerage, must not Object to a Small One being placed upon them, They are likewise requested to Replace the Small One, whenever they have Occasion to remove it

XX As the Parties whom these Rules Concern, have expressed their Approbation of them, & Willingness to Conform to them; their Words will be Considered as a Full Security for the Observance of them, But should a Deviation from the Regularity to which they apply take Place, Some other Mode will be Adopted for a Stricter Enforcing of them.

Gentlemen are requested not in any Way to Deface this Paper
